Change Proposal Intent
<i>Please set out the intent of the CP and the issue it is seeking to address</i>
When DCUSA was introduced, various matters were left open for discussion and these were captured in Schedule 12. All of these matters have now been either, <ol style="list-style-type: none"> 1. considered via change proposals to DCUSA (whether implemented, rejected or still being discussed), or 2. passed to the SIG for consideration.

As DCUSA is now relatively mature, the need for such a schedule is redundant as matters for future development are tracked via the Panel's own work and monitoring activity, which is discussed at Panel meetings, or via change proposals raised by Parties.

The intent is to delete the current Schedule 12 and renumber subsequent schedules or else to mark schedule 12 unused (if this is more efficient due to referencing of subsequent schedules – decide which option based on legal advice).

Business Justification & Market Benefits

Tidy up of DCUSA. Housekeeping exercise.

I have identified this as **not** being a part 1 matter as I don't believe it truly affects the change control process or governance.

Proposed Implementation Date

Please specify and give a reason if proposed date is outside the release schedule (February / June / November)

February 2010 Release.

Proposed Solution

Please insert proposed change marked legal drafting here. The Change Proposal Intent will take precedence in the event of any inconsistency

Delete Schedule 12 or mark unused.

DCUSA Objectives

Please state which DCUSA Objective(s) will be better facilitated by this CP and give supporting reasons

- ~~1. The development, maintenance and operation by the DNO Parties and IDNO Parties of efficient, coordinated, and economical Distribution Networks;~~
- ~~2. The facilitation of effective competition in the generation and supply of electricity and (so far as is consistent therewith) the promotion of such competition in the sale, distribution and purchase of electricity;~~
- ~~3. The efficient discharge by the DNO Parties and IDNO Parties of obligations imposed upon them in their Distribution Licences; and~~
4. The promotion of efficiency in the implementation and administration of this Agreement.

It recognises the maturity of the document and so administration and implementation is facilitated through the normal day to day activities and processes rather than through reference to a schedule to the code.

Environmental Impact

Please indicate whether you consider that there may be any environmental impact as a consequence of this CP being implemented
