

DCP 063 – Legal Drafting

Basic Vote

12.11 For the purposes of Clause 12.10, the Basic Vote (V) shall be calculated as follows:

$$V = \frac{N}{TN} \times 100\%$$

where:

N is (subject to Clause 12.12):

(a) in respect of a Group comprised of DNO Parties, the aggregate number of Metering Points which each such DNO Party has on its MPAS Registration System;

~~(b) in respect of a Group comprised of IDNO Parties, the aggregate number of Metering Points which each such IDNO Party has on its MPAS Registration Systems;~~

~~(c)~~(b) in respect of a Group comprised of Supplier Parties, the aggregate number of Metering Points against which those Suppliers are registered across all of the MPAS Registration Systems; and

~~(d)~~(c) in respect of a Group comprised of DG Parties, the sum of the Maximum Export Capacities of all of the Entry Points relating to Metering Systems for which those DG Parties are Registered; and

TN is, in respect of any Group, the sum of the values of N for all the Groups within the same Party Category as that Group which cast a vote.

12.12 In undertaking the calculations provided for in Clause 12.11, the Secretariat shall rely upon:

Formatted: Indent: Left: 2.5 cm, No bullets or numbering

12.12.1 in the case of Clauses 12.11(a) ~~and~~, (b) ~~and (c)~~, the information regarding registrations last provided under clause 27.6 of the MRA and made available to the Secretariat prior to the vote in question; and

12.12.2 in the case of Clause 12.11(~~d~~), the Party Details as set out in Schedule 11 on the date of the vote in question.
