Part 1 / Part 2 Matter	Part 1

Change Proposal Intent	
To align the Extended PCDM model and the relevant legal text as laid out within DCUSA.	
Business Justification and Market Benefits	
This change will benefit the work of DCUSA parties by removing any difference between the legal text and the Extended PDCM. It will work to ensure that parties can be confident that the design of the model reflects the wording in the agreement.	
Proposed Solution and Draft Legal Text	
<p>This change has been proposed to address inconsistencies between the Extended PCDM and the legal text, following a separate change proposal (DCP198) which looked to address similar issues with the PCDM model and the legal text in Schedule 16.</p> <p>The Extended PCDM was brought under the governance arrangements following the approval of DCP128. Although the legal text was not revised at this time it has been agreed as part of the DCP198 discussions that the legal text needs to be aligned to the PCDM model, it is the expectation that the same approach is appropriate for the Extended PCDM.</p>	

Proposed Implementation Date	
To be used for charge setting for April 2015, however the revised model should be able to be approved so it is available well in advance of indicative tariffs being set.
