

**DCP 205A Legal Text**

**Recovery of costs due to load and generation increases from existing customers in RIIO-ED1**

**Add new paragraphs 1.30A and 1.30B in Schedule 22 as follows:**

- 1.30A We will fully fund Reinforcement carried out to allow the installation of all equipment at an existing premises which remain connected via an existing low-voltage single, two or three phase service fused at 100 amperes or less per phase which is metered with whole-current metering; provided that (to the extent relevant):
- the Reinforcement is carried out to allow the installation of equipment as part a single application for a single or multiple installations;
  - any and all electricity generation equipment installed has a rated output not greater than 16 amperes per phase (or not greater than 16 amperes per phase at any single premises if a single application for multiple installations).
- 1.30B Where it is necessary to modify a low-voltage single phase looped service for an existing premises, this shall be considered to have remained connected under Paragraph 1.30A above.
