#### **Amend Schedule 16, Paragraph 114 as follows:**

114. The DNO Party ~~determines~~ will procure that the Nominated Calculation Agent estimates for the DNO Party's Distribution Services Area the proportion of the LV mains which LV-connected embedded networks are deemed to use by:

- (a) determining the total length of its LV mains used by LV-connected licensed embedded networks;
- (b) dividing that total length by the number of end users on LV-connected licensed embedded networks; and
- (c) dividing the result by the average length of LV mains by LV end user on the DNO Party's own LV network.

The estimates under this paragraph 114 will be based on available data provided by DNO Parties and the IDNO Parties.
