Timeline

The timetable for the progression of the CP is as follows:

Change Proposal timetable

Activity	Date
Initial Assessment Report Approved by Panel	16 January 2019
Change Report Approved by Panel	20 February 2019
Change Report issued for Voting	22 February 2019
Party Voting Closes	15 March 2019
Change Declaration Issued to Parties	19 March 2019
Implementation	First DCUSA Release following Party approval

1 Summary

What?

- 1.1 Work has been underway under the auspices of the Energy Network Association (ENA) to develop best practice protocols for managing emergency incidents. Under Clause 30.13 of DCUSA, there is provision for DNOs to contact Suppliers via email when incidents arise of a certain magnitude to provide information about the incident, its severity and expected duration (where known).
- 1.2 Currently, there is no mechanism within DCUSA for Supplier Parties to provide email point of contact information for use in such scenarios. Information is currently being sent to Supplier Parties' contract managers for onward distribution within their organisations.
- 1.3 Supplier Parties should be required to provide an email point of contact for receipt of information about emergency incidents and to keep the point of contact details up-to-date.

Why?

- 1.4 Provision and maintenance of up to date email contact details for Supplier Parties in incident management scenarios will improve the efficiency of the process for getting key information about incidents to those who need to know. The objective here is to ensure timely and clear lines of communication in the event of an incident, promoting effective and efficient responses in order to safeguard and protect customers and maintenance of industry reputation.

How?

- 1.5 Currently, Parties provide Contract Manager information to the DCUSA Secretariat for publication on the DCUSA Website. This proposes that in addition, Supplier Parties should provide an email incident management point of contact to the DCUSA Secretariat and keep this up to date, confirming the details at least annually (by 30 September in each calendar year). The DCUSA Secretariat will be responsible for collecting such information from Supplier Parties and uploading this to the secure members areas of the DCUSA Website by adding the details to the Party contact list.

2 Governance

Justification for Part 2 Matter

- 2.1 The DCUSA Panel reviewed DCP 335 and noted that the Proposer's opinion was that the change should be treated as a Part 2 Matter.
- 2.2 The Proposer believes that although this CP will facilitate communication about the safety and security of the distribution network, it does not in itself relate to this. It does not satisfy any of the other criteria set out in DCUSA Clause 9.4 which requires the CP to be treated as a Part 1 Matter.
- 2.3 The DCUSA Panel agreed that Authority consent would not be necessary as the CP is straightforward and clear in its intention and does not require any further development.

3 Why Change?

Background of DCP 335

- 3.1 Under Clause 30.13 of DCUSA, there is provision for DNOs to contact Supplier via email when incidents arise of a certain magnitude to provide information about the incident, its severity and expected duration (where known).
- 3.2 Currently, there is no mechanism within DCUSA for Supplier Parties to provide email point of contact information for use in such scenarios. Information is currently being sent to Supplier Parties' Contract Managers for onward distribution within their organisations. This can lead to delay in information being disseminated to those who need to know.
- 3.3 Implementing this change will allow information to be sent directly to key personnel within Supply businesses, which will improve Supplier Parties' ability to respond to enquiries from affected customer and to better assist vulnerable customers in emergency situations.

4 Solution

DCP 335 Assessment

- 4.1 The solution for this CP would include a new Clause 30.13A to be added under Clause 30.13 of Section 2A of DCUSA. the content of the new Clause would create an obligation for Users to provide contact email details and confirm that continued accuracy of these annually by 30 September each year will ensure that Distributors have access to up to date and relevant points of contact in Supplier organisations for the communication of information on emergency incidents.
- 4.2 The new clause will also create an obligation for the DCUSA Secretariat to publish and maintain a list of these email points of contact. This will need to be located in the members only section of the DCUSA Website.

5 Relevant Objectives

Assessment Against the DCUSA Objectives

- 5.1 For a DCUSA Change Proposal to be approved it must be demonstrated that it better meets the DCUSA Objectives. The CP form provided as Attachment 3, details which of the DCUSA Objectives the Proposer considers DCP 335 better facilitates.

Impact of the Change Proposal on the Relevant Objectives:

Relevant Objective	Identified impact
General Objective One – The development, maintenance and operation by the DNO Parties and IDNO Parties of efficient, co-ordinated, and economical Distribution Networks	Positive
General Objective Four – The promotion of efficiency in the implementation and administration of the DCUSA	Positive

- 5.2 These DCUSA General Objectives will be better facilitated by the implementation of this change as it will enable the DNO Parties to communicate more effectively and efficiently with Supplier Parties in the event of an emergency incident.

6 Impacts & Other Considerations

- 6.1 This has been discussed by the ENA and Energy UK as part of a package of measures to improve the industry management of severe weather scenarios and other major incidents leading to loss of supply for significant numbers of consumers.

Does this Change Proposal impact a Significant Code Review (SCR) or other significant industry change projects, if so, how?

- 6.2 N/A

Consumer Impacts

- 6.3 No consumer impacts have been identified.

Environmental Impacts

- 6.4 In accordance with DCUSA Clause 11.14.6, the Proposer assessed whether there would be a material impact on greenhouse gas emissions if DCP 335 were implemented. The Proposer did not identify any material impact on greenhouse gas emissions from the implementation of this CP.

7 Implementation

- 7.1 It has been noted that this change will deliver immediate benefits and efficiencies and should be implemented as soon as possible. Therefore, the change will be implemented on the first DCUSA Release following on from Party approval.

8 Legal Text

- 8.1 The legal text for DCP 335 has been recommended by the Proposer and reviewed by the DCUSA legal advisor and is provided as Attachment 2.
- 8.2 The legal text change introduces a new Clause 30.13A to be added under Clause 30.13 of Section 2A as follows;

30.13A The User shall provide one or more contact email address(es) to the Secretariat for receipt of information under Clause 30.13, and shall ensure that this remains up to date, confirming this by 30 September in each calendar year. The Secretariat shall publish such contact information on the DCUSA Website, and where changes are notified update this as soon as reasonably practicable.

- 8.3 The Proposer all suggests the amendment of a Paragraph 3A in Schedule 14 (Website Requirements) as follows:

3A (d) the contact details for receipt of information under Clause 30.13 (under which Users are notified of significant off-supply incidents); and

8.4 The Proposer is satisfied that the legal text meets the intent of the change.

9 Code Specific Matters

Modelling Specification Documents

9.1 Not applicable.

Reference Documents

9.2 Not applicable.

10 Voting

10.1 The DCP 335 Change Report was issued to DCUSA Parties for Voting on 22 February 2019.

Part 2 Matter: Authority Decision Not Required

DCP 335 Proposed Variation (Solution) Decision

10.2 For the majority of the Party Categories that were eligible to vote:

- the number of groups in each Party Category which voted to accept the proposed variation was more than 65% of the total number of Groups in that Party Category which voted; and
- the sum of the Weighted Votes of the Groups in each Party Category which voted to accept the proposed variation was more than 65%

10.3 DCUSA Parties have voted to **accept** the proposed variation (solution) of DCP 335.

DCP 335 Implementation Date Decision

10.4 For the majority of the Party Categories that were eligible to vote:

- the number of groups in each Party Category which voted to accept the implementation date was more than 65% of the total number of groups in that Party Category which voted; and
- the sum of the Weighted Votes of the Groups in each Party Category which voted to accept the implementation date was more than 65%.

10.5 DCUSA Parties have voted to **accept** the implementation date of DCP 335.

The table below sets out the outcome of the votes that were received in respect of the DCP 335 Change Report that was issued on 22 February 2019 for a period of 15 working days.

DCP 335	WEIGHTED VOTING				
	DNO	IDNO	SUPPLIER	DISTRIBUTED GENERATOR	GAS SUPPLIER
CHANGE SOLUTION	n/a	n/a	Accept	n/a	n/a
IMPLEMENTATION DATE	n/a	n/a	Accept	n/a	n/a

11 Recommendations

DCUSA Parties

11.1 DCUSA Parties have voted on DCP 335, with the outcome being a decision to accept the Change Proposal and thus the proposed variation to the DCUSA will be made accordingly.
