

The following update was given by the Elexon representative:

- 1. P300/DCP179** - ELEXON is now taking forward the required DTC changes and will raise a CP in the next few weeks. FYI, please see attached final requirements and diagram.
- 2. CP1414 v2.0** - This is expected to go out for consultation on 8 Dec, with responses due back by 9 Jan 15. Donna should have more detail regarding this CP.
- 3. P305 - Electricity Balancing Significant Code Review Developments**
 - The Workgroup has requested further work be carried out before it is ready to sign it off for consultation.
 - Two further Workgroup meetings will be held on Friday 28 November 2014 and Monday 1 December 2014.
 - This has delayed the likely Assessment Consultation date to February 2015.
