Smart Meter Installs

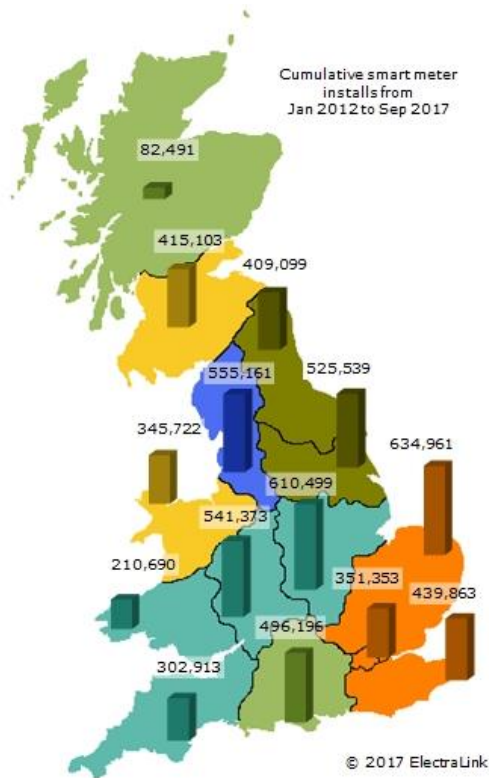

This paper provides an overview of the cumulative smart meter installs for September 2017.

1 Overview

- 1.1 ElectraLink currently publishes an extract of smart meter installs on its website and is able to provide a comprehensive market-wide dataset covering meter installations, DNO and site visit issues undertaken by all Suppliers for electricity installs going back to April 2012. This data was reviewed by the SMICoP Governance Board, whereby it was noted that a report on the Service Terminations Category Codes may be of interest to the Interventions Working Group.
- 1.2 The graph below shows the smart meter installs for September 2017, which indicates that **239,622** SMETS meter were installed:

- 1.3 The graph below shows the cumulative smart meter installs from January 2012 to September 2017, which indicates that **5,920,963** SMETS meters have been installed:

2 Recommendations

2.1 The IWG is invited to:
