¹ The next DCUSA release is scheduled on the 02 November 2017

1 Executive Summary

What

- 1.1 The Distribution Connection and Use of System Agreement (DCUSA) is a multi-party contract between electricity Distributors and electricity Suppliers and large Generators. Parties to the DCUSA can raise Change Proposals (CPs) to amend the Agreement with the consent of other Parties and (where applicable) the Authority.
- 1.2 The election of Panel members is currently drafted to work in the manner that the winner in an election for a Party Category becomes the Panel member and the second placed becomes the Alternate. In practice people often volunteer to be Alternates (on the basis of the occasional stand in for the Panel member) but cannot commit to being permanent Panel members.
- 1.3 DCUSA provides for a member's alternate to attend a meeting in his place but does have a shortcoming in not recognising the unavailability of both Panel member and the alternate.
- 1.4 It is intended to amend DCUSA to address this shortcoming and to reflect these practicalities

Why

- 1.5 To ensure that DCUSA is reflective of the practicalities of elected members and meeting attendance.

How

- 1.6 By amending DCUSA to allow the mechanism for choosing Panel Members and their Alternates to recognise that some persons may be able to act as Alternates, on an occasional stand in basis, but cannot commit to being permanent Panel Members – effectively the mechanisms for choosing the Panel Member and the Alternate are divorced from each other. And;
- 1.7 By amending DCUSA to reflect that substitutes in meeting attendance could be from the pool of same-Party Alternates, in a hierarchy of choice (member's Alternate, Alternate from same Party Category) so long as existing quoracy requirements are maintained (i.e. there must still be one person elected by DNOs and one person elected by Suppliers).

2 Governance

Justification Part 1 Matter

- 2.1 DCP 300 has been identified as a Part 1 Matter as it affects the governance of the DCUSA.

Requested Next Steps

- 2.2 The DCUSA Panel recommends that this CP:

- Be issued to Parties for Voting

3 Why Change?

Background of DCP 300

3.1 DCP 300 was proposed to ensure practicality and reflect reality in the panel membership processes and more flexible and practical arrangements for Alternates to cover Member attendance.

4 Solution

DCP 300 Assessment

- 4.1 The legal text was based on release 8.2 and contains more clauses than those that are changing to give context.
- 4.2 The definition of Alternate is revised and the definition of Reserve is removed.
- 4.3 Changes to Clause 6 allow for a new method of selecting Panel Members and Alternates, where a person may put themselves forward for either role independently. It further deals with attendance at meetings by Alternates acting as Panel Members in 6.12.
- 4.4 Minor consequential changes are also made in Clause 7 and Schedule 10.

5 Relevant Objectives

Evaluation Against the DCUSA Objectives

- 5.1 For a DCUSA Change Proposal to be approved it must be demonstrated that it better meets the DCUSA Objectives.
- 5.2 The Proposer believes that this change is better facilitated by DCUSA General Objective 4:

| DCUSA General Objectives | Identified impact |
|--|-------------------|
| <input checked="" type="checkbox"/> 4 The promotion of efficiency in the implementation and administration of the DCUSA | Positive |
| General Objective 4 By improving the practical selection and availability of Panel members and Alternates to provide a wider pool of Alternates to cover for Member absences. | |

6 Impacts & Other Considerations

Does this Change Proposal impact a Significant Code Review (SCR) or other significant industry change projects, if so, how?

6.1 This Change Proposal does not impact a Significant Code Review or other significant industry change project.

Consumer Impacts

6.2 The Proposer did not identify any material impact on consumers from the implementation of this CP.

Environmental Impacts

6.3 In accordance with DCUSA Clause 11.14.6, the Proposer assessed whether there would be a material impact on greenhouse gas emissions if DCP 300 were implemented. The Proposer did not identify any material impact on greenhouse gas emissions from the implementation of this CP.

7 Implementation

7.1 Subject to Party approval, the DCP 300 change will be implemented on the next DCUSA Release following approval.

7.2 DCP 300 is classified as a Part 1 matter and therefore Authority determination is required.

8 Legal Text

8.1 The DCP 300 Legal Text can be found as Attachment 1.

9 Recommendations

Panel's Recommendation

9.1 The Panel approved this Change Report on **19 July 2017**. The Panel considered that a sufficient level of analysis had been carried out to enable Parties to understand the impact of the proposed amendment and to vote on DCP 300.

Requested Next Steps

9.2 The DCUSA Panel recommends that this CP:

- Be issued to Parties for Voting and DCUSA Parties should consider whether they wish to submit views regarding this Change Proposal.
