

BSC Update

1. TERRE Stakeholder Consultation Workshop at ELEXON on 12 July 2017

As noted in previous Newscasts, the Project TERRE Transmission System Operators (TSOs) are organising a Europe-wide TERRE Stakeholder Meeting. It has now been confirmed that this event will be held on **Wednesday 12 July** at ELEXON.

This workshop will be timed to coincide with a Project TERRE consultation that will be launched around the same time. We expect that BSC Parties and others involved in electricity trading from across Europe will be interested in attending.

For further details of the event and to register to attend, please see the [ENTSO-E website page](#)

2. Elective Half-Hourly Settlement follow-up event: 28 June 2017

Following the recent successful 'Walkthrough of the Elective Half-Hourly Settlement (HHS) processes' on 6 April 2017, ELEXON is hosting a follow-up event on **28 June 2017 from 10:00 to 13:00**.

The event is intended for interested parties that were not able to attend the original event due to the restriction on numbers. This session will be more educational than the previous walkthrough, which sought to identify defects in the new processes.

The event will include presentations from SECAS, MRASCo and ELEXON, covering:

- Getting Half-Hourly data from smart Meters.
- Data flow changes to support elective HHS.
- The new processes for elective HHS.

If you are interested in attending the event please contact: Kevin.Spencer@elexon.co.uk

4. Supplier Charge annual review

ELEXON has calculated the GSP Group liability Caps and Supplier Charge values for the BSC Year 2017–2018. These have been calculated in accordance with [Annex S-1](#), paragraph 3.8 of the BSC. The Performance Assurance Board (PAB) has approved the revised Caps and Charges and the revised values will be applied to the reporting periods April 2017 – March 2018.

The updated Supplier Charges are available on the [Supplier Charges](#) page of our website, under

'related content'.

For further information concerning the calculations and values please refer to [the relevant PAB meeting document](#) or email PAA@elexon.co.uk.

5. Modifications, Change and Implementation

CP1485 approved for implementation

[CP1485 'Validation of power transformer and cable/line loss adjustments'](#) has been approved by the Imbalance Settlement Group at their [23 May](#) and [30 May 2017](#) respectively, for implementation on 2 November 2017 as part of the November 2017 Release.

P325 officially withdrawn

Modification [P325 'Improving the accountability of BSCCo to stakeholders and better aligning BSCCo governance with best practice'](#) was officially withdrawn from the BSC Change process on 25 May 2017.

As per [BSC Section F 'Change Management'](#), Section 2.1.12B, the Modification was issued for a five Business Day period where the withdrawn Modification Proposal remained open to be adopted. No notices were received and the Modification was officially closed when the time lapsed.

[CP1487 'Remove the exclusion of Change of Measurement Classes in BSCP533 Appendix B'](#) has been issued for consultation.

Deadline for responding: **30 June 2017, 17:00.**

CP1491 raised by ELEXON

[CP1491 'Lack of clarification surrounding the timeliness of Proving Tests and documentation for CVA MOA in BSCP02'](#) was raised on 15 June 2017 and will be present for information to the Imbalance Settlement Group (ISG) on **27 June 2017**.

P332 Data Request

The [P332 'Revisions to the Supplier Hub Principle'](#) Workgroup is requesting information to support its assessment of P332 by **17:00 on 26 June 2017**.

We are asking all **Suppliers** and **Supplier Agents** to respond to this request. You can download the pro-formas from the [P332 page](#) and [Consultations pages](#) of our website.

This information will be included in the P332 interim report, which will be presented to the BSC Panel on **13 July 2017**.
