**Subject:** RE: For Information: DCUSA Application for Derogation - Foxglove Energy Supply

Hello,

Thank you for sending this derogation application to us.

We note that this is the second derogation request from Foxglove Energy Supply in respect of TRAS. We are concerned that this party seems to be having difficulty reaching a position where it will be compliant with its DCUSA obligations.

If the Panel approves this second derogation, we hope that it will put in place regular monitoring of progress during the derogation period to provide assurance that a compliant position will be reached this time and that the matter is being given sufficient attention by the party concerned.

Kind Regards

*Sasha*
