			<p>this change.</p> <p>This change will improve efficiency in the implementation and administration of the DCUSA arrangements by changing the misconception that any Licence derogation made in relation to DCUSA is subject to the DCUSA Panel being in receipt of such derogation (which it obviously is not) and it improves the notification process by identifying who is responsible for notifying the DCUSA Panel when one is granted. This will avoid any administrative burden in and around this area.</p>
