

## **Email from Scottish Power 3 May 2013**

This RFI is due on Friday for DCP161.

Please find the files to be returned to DCUSA attached.

Can you please make the following comments:

In SPD, the tariffs "LV Sub HH Metered" & "HV Sub HH Metered" have < 10 customers; hence this data is excluded from the "Customer No" tab only due to its sensitive nature.

Also, the 2010/11 Apr-Sep Excess capacity billing data has been adjusted as this information was not itemised in the billing system, due to derogation.
