

EMAIL FROM NORTHERN POWER GRID 27/06/13

As requested, please find attached a completed 'Appendix B - DNO Template v3' spreadsheet for both Northern Powergrid (Northeast) & Northern Powergrid (Yorkshire).

With respect to the attached information, we have removed no data spikes/erroneous data that may have since been corrected and the EHV figures for both 2010/11 & 2011/12, for both licences, have customers exceeding their capacities but we did not have a capacity charge for these charging years and therefore recovered no revenues.

Regards

Gary Holmes
