

**EMAIL FROM SSE – 17/07/13**

I attach the Append B templates for SEPD & SHEPD. Note that in Tables 1 & 2, data are available for only 2012/13. In Table 2 we have been unable, within the time available, to expedite revenue for excess capacity charges from EHV connected customers. Regrettably, this would be a significant undertaking which is impractical at the current time. Similarly, the "Invoices Issued" data are not currently available.

Please let me know if you have any comments or require anything further.

Kind regards

Donald
