## 1. Welcomes and Apologies

---

- 1.1 The Chairman noted the welcome and apologies for this meeting.

## 2. Administration

---

- 2.1 The minutes of the previous meeting were agreed without amendment. The actions log is included as Appendix A.
- 2.2 The Working Group reviewed the “Competition Law Do’s and Don’ts”. All Working Group members agreed to be bound by the Competition Laws Do’s and Don’ts for the duration of the meeting.

## 3. Review of the DCP 268 Draft Legal Text

---

- 3.1 The Working Group reviewed and amended the draft legal text which acts as Attachment 1. It was agreed to change UMS to Unmetered Supplies in the tariff mapping table and reflect it in the legal text.
- 3.2 Members discussed the table below Schedule 16 Clause 74 on the standing charge factors for demand tariffs. It was noted that a standing charge appears in the model but does not include the related MPAN tariffs in the mapping of the model. Unlike the UMS tariff which does have a line in the model. Members agreed to retain the UMS tariff in this table.
- 3.3 The Working Group noted that the proposed legal text did not allow for a customer to be NHH and CT metered. Members discussed and amended the measurement classes applicable to the non-domestic aggregated tariffs where there is a current transformer at the table at Clause 132C.
- 3.4 Members amended the Clauses 132A and 132B that were introduced by DCP 179 ‘Amending the CDCM Tariff Structure’ for guidance purposes prior to the introduction of BSC modification P300 ‘Introduction of new Measurement Classes to support Half Hourly DCUSA Tariff Changes (DCP179’.

- 3.5 The Working Group updated the CDCM tariff mapping spreadsheet to reflect the amended tariff names and requested that the secretariat create an equivalent EDCM tariff mapping spreadsheet for the IDNO tariff names. These spreadsheets are to be submitted to the modelling support consultant.

**ACTION 10/01:** ElectraLink to create an EDCM tariff mapping spreadsheet for submission to the modelling support consultant.

- 3.6 The Working Group also agreed to add Schedule 17 and 18 Clause 1.3 EDCM models (FCP and LRIC) version number and implementation date changes to the legal text.

## 4. Next Steps

---

- 3.1 The DCP 268 Working Group agreed the next steps as follows:
- Draft legal text to be updated and submitted to the DCUSA legal advisor for review;
  - Modelling support request to be submitted to the modelling support consultant;
  - Secretariat to draft the change report and circulate to the Working Group for review;
  - Working Group to review the change report ex-committee;
  - To aim to submit the change report to the May DCUSA Panel.

## 5. AOB

---

- 4.1 There were no items of any other business.

## 6. Next Meeting – 02 May 2017

---

- 5.1 The next meeting is scheduled for the 02 May 2017 at 10am to finalise the change report.
