

DCUSA CHANGE PROPOSAL WORKING GROUP - TERMS OF REFERENCE - DCP 235

PART A - GENERAL

1 ESTABLISHMENT OF THE GROUP

- 1.1 DCUSA Working Groups are established by the DCUSA Panel in accordance with Clause 7.24 of the DCUSA.
- 1.2 Part A sets out the General Terms of Reference (ToR) that apply to all DCUSA Change Proposal Working Groups. Where the DCUSA Panel direct that additional ToRs should apply to the Working Group, these will be set out in Part B.

2 SCOPE

- 2.1 This Working Group has been established in order to carry out the Definition Procedure in respect of a Change Proposal pursuant to Clause 11.14.
- 2.2 The Working Group (and each member thereof) is responsible for assisting the DCUSA Panel in the evaluation of DCUSA Proposals by undertaking the following activities:
- Determining whether to consult with Parties, and (where appropriate) with any interested third party on the Change Proposal.
 - Considering and clarifying the likely effects of the proposed variation to the Agreement, and indicating which Party Categories it considers will be affected by the proposed variation.
 - Considering the impact and interactions with other industry codes when progressing the Change Proposal.
 - Evaluating, developing and refining the proposed variation to the Agreement to the extent that it better facilitates the DCUSA Objectives.
 - Providing both the Proposer and a majority of the Working Group are supportive, the developing and refining of a proposal may go beyond the stated intent (where reasonable and appropriate), as long as the Working Group ensures the changed intent meets the spirit of the original. In such instances the Working Group should notify the DCUSA Panel. The DCUSA Panel may redirect the Working Group if the revised intent is not reasonable and appropriate.
 - Providing both the Proposer and a majority of the Working Group are supportive, the developing and refining of a proposal may include proposing to the DCUSA

Panel that the status of the CP as either “standard” or “urgent” is changed. In such instances the Working Group should provide the rationale for the change of status and an updated Working Group work plan to the DCUSA Panel. The DCUSA Panel will consider and make a determination on the proposal.

- Evaluating the likely impact of the proposed date for implementation of the variation, and where it considers appropriate, amending this date.
- Reviewing the CP legal text sufficiently once the DCUSA Legal Advisor has reviewed it prior to it being submitted to the DCUSA Panel as part of the Change Report.
- Considering whether, if the proposed variation were made, the Agreement would better facilitate the achievement of one or more of the DCUSA Objectives than if that variation were not made, and providing a rationale for this assessment.

3 DCUSA CHARGING METHODOLOGY CHANGES

3.1 Where a CP impacts the DCUSA Charging Methodologies, the Working Group is additionally required to ensure that the following actions are carried out prior to submitting the CP Change Report.

1. Where the CP impacts upon the CDCM Model, EDCM Models, Method M (CDCM Price control disaggregation) model, Extended Method M (EDCM Price control disaggregation) model and/or the Annual Review Pack, updated and fully tested models must be provided with the Change Report.
2. The version number of amended models must be updated in the CP legal text. The location of the version numbers is as follows:
 - CDCM Model – Schedule 16 paragraph 3(a)
 - CDCM Price Control Disaggregation Model - Schedule 16 paragraph 3(b)
 - EDCM FCP Model - Schedule 17 paragraph 1.3(a)
 - EDCM Price Control Disaggregation Model - Schedule 17 paragraph 1.3(b) AND Schedule 18 paragraph 1.3(b)
 - EDCM LRIC Model - Schedule 18 paragraph 1.3(a)
 - ARP – Schedule 20 paragraph 1.1

When updating the legal text for this, the version number and model publication date should be replaced by square brackets. A footnote should state that the date and model publication are “To be included by the Panel on implementation.”

3. Once the modelling support consultant has provided updated models, if any changes are made to the legal text that have the potential to impact upon calculations, then the modelling support consultant should be asked to confirm that the model still meets the intent of the legal text.
4. The legal text should be cross checked against all approved but not implemented CPs to ensure that no two CPs are changing the same DCUSA paragraph.
5. Considering whether, if the proposed variation were made, the Agreement would better facilitate the achievement of one or more of the DCUSA Charging Methodology Objectives than if that variation were not made, and providing a rationale for this assessment.
