

DCUSA Model Specification Pack Cover Sheet DCP 234 “Merging the PCDM and extended PCDM”	
Purpose of Document:	<p>This cover sheet presents documents for use by the appointed DCUSA consultant in updating the following DCUSA models for DCP 234:</p> <ul style="list-style-type: none"> To merge the Price Control Disaggregation Model (PCDM) and Extended PCDM into a single model, and create a new schedule in DCUSA which contains the legal text that relates to IDNO charging that is currently contained in Schedules 16, 17 and 18.
Modification Description:	<p>DCP 234 seeks to replace the PCDM and extended PCDM models with one model.</p> <p>It will also create a new schedule in DCUSA which contains the legal text that relates to IDNO charging that is currently contained in Schedules 16, 17 and 18.</p> <p>Currently DNOs need to update 2 models to calculate the discounts that are applied to LDNO tariffs. The models are very similar and contain the same inputs, so it would be more efficient to replace the two models with one. The methodology that determines the discounts is contained in 3 separate places within DCUSA and there is a large amount of duplication. It is proposed to extract all the legal text that relates to LDNOs and place them into a new schedule. This will simplify the governance process and make it easier for stakeholders to bring forward changes.</p>
List of Attachments:	<p>Attachment A – DCP 234 CP Form</p> <p>Attachment B – Model Specification Document</p> <p>Attachment C – Minutes from Working Group Meetings 1</p>
Required Tasks:	<p>The Working Group would like to request the following KPIs:</p> <ul style="list-style-type: none"> KPI-13: Updated models and impact estimates KPI-05: Model documentation KPI-02 (meetings) KPI-17 (ad hoc day) **(I am unsure if this one corresponds to the legal text)
Additional Information:	None
