Dear Panel Chair

Authority decision to send back DCUSA modification proposal DCP232 'GP and GL Solution'

On 25 August 2015, the DCUSA Panel submitted a Final Change Report for DCUSA modification proposal DCP232 'GP and GL Solution'.

During the review we have found what we understand to be an error in the Proposed Legal Text (attachment 2 of the submission). This means that we are unable to approve this modification in its current form.

The Proposed Legal Text as drafted sets the values of GL to zero from (and including) charging year 2014-15. We believe the reference to charging year 2014-2015 to be in error and that the GL term should be set to zero from (and including) charging year 2015-16.

We therefore direct the panel to revise and resubmit the Change Report to reflect the intent of the change proposal. Assuming this was an error, the DCUSA Panel should resubmit a revised DCP232 correcting this for decision as soon as practicable.

Yours sincerely,

Ian Rowson – Associate Partner: Regulatory Finance & Compliance
