<b>Electricity North West Ltd</b>	Accept	Accept	n/a
<b>Northern PowerGrid - North East</b>	Accept	Accept	We agree that DCP 197 better facilitates DCUSA charging objective one and general objective three, whilst also positively impacting charging objective two by enforcing the use of the new PCDM which will better facilitate this objective.

<b>SSE – Hydro plc</b>	Accept	Accept	
<b>UKPN - Eastern Power Networks</b>	Accept	Accept	We remain of the view, as per the proposal, that this change better facilitates General Objective 3 and Charging Objective 1. We support this change because the version number of the model currently quoted in DCUSA is to a version of the model that is not doing what the updated methodology says it should. This change better facilitates compliance with DCUSA by removing this inconsistency.
