2 BACKGROUND AND SUMMARY OF DCP 186 - SEC CONSEQUENTIAL CHANGES

- 2.1 DCP 186 seeks to update the DCUSA to make reference to, and in light of, the new Smart Energy Code.
- 2.2 The Proposer explains that the new Smart Energy Code (SEC) introduces a new opportunity to facilitate cross code sharing of information and requires that Parties who should be a party to the Code are so before any obligations become due to them.
- 2.3 The DCUSA Smart Working Issues Group (SWIG) identified a number of consequential changes arising from the introduction of the SEC. DCP 186 brings forward some of these changes into the DCUSA and will put the SEC on a similar footing to other industry codes where there are likely to be interactions with DCUSA obligations.
