## 5 WORK PLAN AND NEXT

5.1 The next steps for the Working Group were agreed as follows:

- The Working Group to meet on Tuesday 8 July 2014 to review the DCP 179 Change Report and discuss the DCP 179 legal text.

5.2 No other items of business were raised.

## **6 DATE OF NEXT MEETING**

6.1 The next Working Group meeting is scheduled for 10am on Tuesday 8 July via webinar.

## **7 ATTACHMENTS**

- Attachment 1 – DCP 179 Consultation Responses Document with Working Group Comments

## APPENDIX A – ACTIONS

## OPEN ACTIONS

!

	concern that there may some reduction in cost reflectivity for PC 5-8 customers whose price will be derived from NHH PC 3 and 4.		
20/04	Ensure that all amendments to the legal text that were agreed during the discussion of Question 3 of the consultation responses are implemented into the final version of the drafting before it's issued to the DCUSA legal advisor	ElectraLink	
20/05	AP to complete the response to British Gas's response for Question 8 post meeting.	AP	
20/06	With regards to the ENWL response to consultation question three, check internally about the point made with regards to Schedule 16, paragraph 140c.	DW	
20/07	With regards to ENWL's consultation response stating for Schedule 16 Para 146 table:  <i>"Please confirm whether or not the "LV Sub Generation NHH" will also be renamed to include Aggregated HH within the title. If so the change also needs to be reflected in the IDNO tariff tables. "</i>  The Working Group agreed to get the number of customers of this type, and explain within the CR that it was not significant enough to change.	All	
20/08	DNOs to describe what approach they will use regarding the LLFCs for the aggregated tariffs for inclusion within the DCP 179 Change Report  <a href="#">3/7/14 - ElectraLink to email DNOs asking them to confirm this.</a>	DNOs/ ElectraLink	
20/09	In the Change Report pull out the NPV and Ofgem objectives of the Smart Metering programme.	All/ ElectraLink	
21/01	Request approval for a DCP 179 updated EDCM Model and ARP	ElectraLink	<a href="#">To be completed after WG meeting 22</a>
21/02	In the Change Report capture that the Working Group recognises that the current process for updating suppliers on capacity changes may not still be fit for purpose given that this change would	ElectraLink	

	increase the numbers. The Working Group acknowledges this is a potential issue and has been raised within the DCMF MIG. The conclusion of the MIG was that this was an MRA issue and should be progressed via that route.		
21/03	Approach to deeming capacity values to be determined for inclusion in the Change Report.	All	
21/04	Highlight in the Change Report that as a transitional arrangement to assist during the implementation of this CP, the Working Group recommends that DNOs issue a list of MPANs with CT metering installed to all Suppliers.		
21/05	Complete the Working Group response to British Gas' response to consultation questions 8, 10 and 12	AP	
21/06	Feedback to the group on Ofgem's views with regards to the proposal to introduce a measurement class H.	Ofgem	
21/07	Add additional Working Group comments to British Gas' response to consultation question 11	GM	
21/08	Drawn out in the Change Report that Ofgem rejected P280 because there was no methodology that it could be measured against. DCP 179 would bring in this methodology.	ElectraLink	
21/09	Consider further the DCP 179 implementation date once the P300 consultation has closed.	All	
21/10	Extend the sample for the impact assessment for existing WC metered customers on the LV HH metered tariff	All	
21/11	Amend the legal text to allow the DNO to deem a capacity.	ElectraLink
