

## DCP 176 Legal Text

### Housekeeping change for Disconnection definition

Amend Clause 1.1 as follows:

#### Disconnect

means: ~~(a) — in respect of Section 2A, to permanently disconnect a Connection Point, Metering Point or Metering System by the removal of all or part of the Company's equipment associated with the connection of such Metering Point or Metering System in accordance with Section 17 of the Act (and cognate expressions shall be construed accordingly).~~ ~~or~~

~~(b) — in respect of Section 2B, to permanently De-energise a Connection Point by the removal of all or part of the Company's Connection Equipment and Connection Assets.~~

#### De-energise

means:

(a) in respect of Section 2A, 2C or 2D, deliberately to prevent the flow of electricity until Re-energised or Disconnected:

(i) in the case of an Exit Point, from the Distribution System through the relevant Exit Point (or, in the case of an Unmetered Supply, any one or more of the relevant Exit Points) to; and/or

(ii) in the case of an Entry Point, via the Distribution System through the relevant Entry Point (or, in the case of an Unmetered Supply, any one or more of the relevant Entry Points) from,

a Connected Installation, for any purpose other than a System Outage on the Company's Distribution

System (and cognate expressions shall be construed accordingly); and

- (b) in respect of Section 2B, deliberately to prevent the flow of electricity through a Connection Point for any purpose other than a System Outage on the Company's Distribution System until Re-energised or Disconnected (and cognate expressions shall be construed accordingly).

**De-energisation  
Works**

means:

(a) - the movement of any switch;

(b) - the removal of any fuse or meter; or

(c) the undertaking of any other stepphysical works,

to De-energise a Connection Point, Metering Point or Metering System.

**Re-energisation  
Works**

means:

(a) - the movement of any switch;

(b) - the replacement of any fuse or meter; or

(c) the undertaking of any other stepphysical works,

to Re-energise a Connection Point, Metering Point or Metering System.

**Amend Clause 25.20 as follows:**

25.20 Subject to Clauses 25.17 and 25.19A, the Company shall carry out the Disconnection of the Metering Point or Metering System in accordance with the Disconnection Notice, and shall:

25.20.1 in respect of a Metering Point, send a De-Registration Notice to the MPAS Provider instructing it to De-register the Metering Point ~~as de-registered~~; or

25.20.2 in respect of a Metering System, provide a disconnection certificate to the User,

(in each case) in accordance with the BSC.
