CP Title	Add National Terms of Connection version control
Impacted parties	All
Impacted Clause(s)	Schedule 2
Part 1 / Part 2 Matter	Part 1
Related Change Proposals	n/a
Change Proposal Intent	
To add version control to the National Terms of Connection to be used within the DCUSA terms and on the terms published at www.connectionterms.co.uk .	
Business Justification and Market Benefits	
At present the National Terms of Connection are published as Schedule 2 of DCUSA and on www.connectionterms.co.uk . The schedule within DCUSA shows the current version of DCUSA as the version control and the published terms show the date published. There is no version control that can be cross referenced between them, adding version control which is shown in DCUSA and retained on www.connectionterms.co.uk is proposed to be able to check that the published terms are the latest available (without requiring prior knowledge of when they were last changed) and make it easier to determine which versions of the terms were live for previous versions of DCUSA.	
Proposed Solution and Draft Legal Text	
Add a version number and effective from date to the National Terms of Connection in both Schedule 2 of DCUSA and the published terms. The version number is to be worked out from all changes to the National Terms of Connection since first publication and the version number used going forward as if	

all changes to the terms had included a version number.

PART B – MANDATORY FOR NON CHARGING METHODOLOGIES CHANGE PROPOSALS

DCUSA Objectives

General Objectives:

Please tick the relevant boxes. [See Guidance Note 9]

- ☐ 1 The development, maintenance and operation by the DNO Parties and IDNO Parties of efficient, co-ordinated, and economical Distribution Networks
- ☐ 2 The facilitation of effective competition in the generation and supply of electricity and (so far as is consistent therewith) the promotion of such competition in the sale, distribution and purchase of electricity
- ☐ 3 The efficient discharge by the DNO Parties and IDNO Parties of obligations imposed upon them in their Distribution Licences
- ☒ 4 The promotion of efficiency in the implementation and administration of this Agreement
- ☐ 5 Compliance with the Regulation on Cross-Border Exchange in Electricity and any relevant legally binding decisions of the European Commission and/or the Agency for the Co-operation of Energy Regulators.

Rationale for better facilitation of the DCUSA Objectives identified above

Promote the efficient administration of this agreement and the National Terms of Connection which form part of this agreement and are also published elsewhere.

PART C – MANDATORY FOR CHARGING METHODOLOGIES CHANGE PROPOSALS

DCUSA Charging Objectives

Please tick the relevant boxes. [See Guidance Note 11]

Charging Objectives:

- ☐ 1 that compliance by each DNO Party with the Charging Methodologies facilitates the discharge by the DNO Party of the obligations imposed on it under the Act and by its Distribution Licence
- ☐ 2 that compliance by each DNO Party with the Charging Methodologies facilitates competition in the generation and supply of electricity and will not restrict, distort, or prevent competition in the transmission or distribution of electricity or in participation in the operation of an Interconnector (as defined in the Distribution Licences)
- ☐ 3 that compliance by each DNO Party with the Charging Methodologies results in charges which, so far as is reasonably practicable after taking account of implementation costs, reflect the costs incurred, or reasonably expected to be incurred, by the DNO Party in its Distribution Business
- ☐ 4 that, so far as is consistent with Clauses 3.2.1 to 3.2.3, the Charging Methodologies, so far as is reasonably practicable, properly take account of developments in each DNO Party's Distribution Business
- ☐ 5 that compliance by each DNO Party with the Charging Methodologies facilitates compliance with the Regulation on Cross-Border Exchange in Electricity and any relevant legally binding decisions of the European Commission and/or the Agency for the Co-operation of Energy Regulators.
