

DCP 169 Legal Drafting

Amend DCUSA Schedule 16, Paragraph 135 as follows:

135. As described in Paragraph 40, there will be three unit rate time bands on a ~~Seasonal Time of Day (SToD)~~ basis for all half hourly settled customers with the exception of the half hourly unmetered supplies tariff, to reflect the requirements of the cost drivers of their individual networks. These three time bands will be called 'red', 'amber' and 'green' to represent three differing cost signals. There will be no constraint on either the number of hours that can be covered by each time band or whether the time band can be split during the day. A time band can be applied to only cover certain days of the week (i.e. Monday to Friday) and / or month(s) of the year in order to reflect the cost drivers within each individual network. As described in Paragraph 40, there will be three unit rate time bands for the half hourly unmetered supplies tariff, to reflect the requirements of the cost drivers of their individual networks. The three time bands will be called 'black', 'yellow' and 'green' to represent three differing cost signals.
