

DCUSA CONSULTATION

DCP 142- USING D2021 FOR ALL INVOICES/CREDIT NOTES IF IT IS USED AT ALL

1 PURPOSE

- 1.1 The Distribution Connection and Use of System Agreement (DCUSA) is a multi-party contract between electricity Distributors and electricity Suppliers and large Generators.
- 1.2 Parties to the DCUSA can raise a DCUSA Change Proposal (“DCP”) to amend the Agreement. DCPs should better facilitate the DCUSA General Objectives and/or Charging Objectives of the DCUSA document.
- 1.3 Amendments to DCUSA may only be made with the consent of a majority proportion of Parties to the DCUSA, through a voting process, or (where applicable) the Gas and Electricity Markets Authority.¹
- 1.4 When a DCP is raised, a Working Group is established to assess and develop the proposal in consultation with industry parties and other interested parties.
- 1.5 This document is a consultation issued in accordance with Clause 11.14 of the DCUSA and seeks industry views on Change Proposal DCP 142 – Using D2021 for All Invoices/Credit Notes if it is used at all.
- 1.6 The Consultation has been issued to DCUSA Parties and Ofgem.
- 1.7 Parties are invited to consider the Change Proposal detailed in this consultation and submit comments using the form attached as Appendix C to dcusa@electralink.co.uk by **28 September 2012**.

2 INTENT OF DCP 142 – USING D2021 FOR ALL INVOICES/CREDIT NOTES IF IT IS USED AT ALL

- 2.1 DCP 142 has been raised by E.On Energy as a result of the work undertaken by the DCMF MIG Annual Review Billing Supergroup. That group was established to determine best practices in DUoS billing and to facilitate moving the Industry towards such practices in order that Distributors adopt a common approach to billing.
- 2.2 The intent is to ensure that all distributors that use the D2021 do so for all invoices/credits raised.

- 2.3 The DCMF MIG Annual Review Billing Supergroup has assessed different approaches used by Distributors under current practice and has determined its view of the optimal common approach that should be adopted in relation to the matter stated in the intent.
- 2.4 The group felt that by having a common approach to billing will make it easier for Suppliers to build validation routines and provides transparency for new entrants.
- 2.5 It was explained by the Proposer that the D2021 is often used to bill initial charges but for some Distributors, credits and re-bills are then raised as paper documents.
- 2.6 This CP has been deemed a Part 1 matter as it is likely to discriminate in its effect upon Parties as some Distributors may have changes to make to their billing systems while others may not.
