

DCP 106 LEGAL TEXT

The Company, at the time of making a formal written request to Authority for revenue changes, must provide written notice to Users that this request has been made. The information provided shall include:

- A unique DNO specific identifier for the change request
- Reason for revenue change request*
- Dependency on other requests and their reference numbers, and the nature of the dependency (options or conditional etc)
- Monetary value requested by the Network Operator to the Authority
- Implementation date requested by the Network Operator to the Authority
- Requested timescales over which the revenue change will be implemented and reported, with details of phasing as appropriate
- Is this already included in published tariffs or the forecast reporting, DCP 066A, and if so, to what extent/phasing
- Current Status / Additional Information

Details of such requests to the Authority will also be updated by the User in DCUSA Schedule 15.

* This field is optional if the reason for the application is deemed by the user to be confidential
