

DCP 036 – Appendix A

No.	Issue Title	Issue Summary	Proposer	Date Logged	Status
020	Clauses 1, 15.3.1, 36.3.1 and 54.2	As part of the changes necessary to implement the new offshore transmission regime, the concepts of "DNO/IDNO/OTSO Party", "DNO/IDNO Party" and "IDNO/OTSO Party" will be introduced. Such concepts aid reference to groups of party categories. In a similar vein, it would appear sensible to introduce the concept of "Supplier/DG Party", and to use this phrase in clauses 15.3.1, 36.3.1 and 54.2.	Gus Wood, Wragge & Co	19/08/08	On Hold
021	Clause 19.9	Clause 15.3 states that Section 2A only creates rights and obligations between a Company and User in respect of the period for which the User is Registered for a meter. Clause 19.9 states that a Company can charge a User in relation to a meter for which the User is not Registered if the User is supplying pursuant to a last resort supply direction. It is implicit that clause 19.9 overrides clause 15.3, but this should be made clear by stating that clause 19.9 applies notwithstanding clause 15.3.	Gus Wood, Wragge & Co	19/08/08	On Hold
022	Clause 42.3	Alternative Solutions cannot be proposed in respect of Distribution System Connection Points. Clause 42.3 must (like clause 42.2) be subject to clause 42.4.	Gus Wood, Wragge & Co	19/08/08	On Hold
023	Schedule 13, clause 7.4	The word "Premises" is not defined and so "premises" should be used.	Gus Wood, Wragge & Co	19/08/08	On Hold
031	Clause 21.2.1	Reference to clause 29.2 should be replaced with 29.3	John Lawton	08/10/08	On Hold
