

Question 5: Do you agree with the proposed assignment of Clauses as Part 1 / Part 2 Matters?	
British Gas	We believe that this is a Part 1 matter
CE ELECTRIC UK	We agree that these proposals have the status of Part 1 matters as set out in clause 9.4 of the DCUSA as they are likely to have significant impact on the interests of electricity consumers and to have significant impact on competition in DCUSA and the provision of metering services.
Central Networks	Central Networks view is that the proposed assignment of clauses as Part 1 and Part 2 matters is correct.
E.ON UK	Yes
EDF Energy Customers plc	We agree that this Change Proposal and the new Clauses are Part 1 Matters because of their impact on the interests of electricity consumers and on competition in supply, distribution and metering.
EDF Energy Networks	Yes
Electricity North West Limited	Yes
energywatch	Yes
ESP Electricity Ltd	Although ESP do not support the proposal, we do believe it would be a Part 1 matter.
IPNL	We believe that the proposal is ultra vires for both DCUSA and the Authority, as such it should not have been considered by the DCUSA Panel and so it is neither a Part 2 Matter nor a Part 1 Matter. That said as it has been placed onto the DCUSA work programme then it must be a Part 1 matter.
Npower Group	Yes, we believe this Change Proposal should be a Part 1 matter given that it is likely to have a significant impact on the interests of electricity consumers.
Scottish Power Energy Retail Limited	Yes – Part 1
SP Distribution / SP Manweb	Yes
SSE Energy Supply Limited	Part 1, but we do not believe that this is the correct forum for these obligations to be imposed and feel that a change in the Distribution Licence obligations is more appropriate.
SSEPD	We do not agree with inclusion of UMeTS under the DCUSA. Notwithstanding this point we feel any

	arrangements should be considered as Part 2 Matters
The Electricity Network Company Ltd	We believe this is a Part 1 matter. We do not agree that the change proposal better achieves the relevant objectives. Therefore, we question whether this is a valid change under DCUSA.
Western Power Distribution (South West) plc and Western Power Distribution (South West) plc	Yes
