

DCUSA DCP 357 – Amending Theft Risk Assessment Arrangements

Draft Legal Text

Add paragraph 10 ('Theft Investigation Sharing with the ELEXON') of Schedule 25 as follows:

- 10.1 The DCUSA Panel shall ensure that the TRAS Service Provider, subject to Paragraph 10.5, provides to the ELEXON those data items from the residential and commercial Outcome Files identified in Appendix 5 (referred to in this Paragraph 10 as the “Theft Investigations Report”).
- 10.2 The DCUSA Panel shall ensure that the TRAS Service Provider provides a Theft Investigations Report on monthly basis in accordance with TRAS arrangements.
- 10.3 ELEXON will create a report that reconciles identified theft from TRAS and Data Flows from the DTN that serve the purpose of accounting for theft in settlement. The data will also be used to evaluate the Risk that Revenue Protection has in the GB Energy Market.
- 10.4 The SPAA EC shall ensure that the TRAS Service Provider uses an encrypted method to provide the Theft Investigations Reports to ELEXON, using such method as the TRAS Service Provider and the ELEXON agree (each acting reasonably).
- 10.5 The sub-committee that oversees the Theft Risk Assessment Service Arrangements shall perform an annual review of the data on Theft of Electricity (as shared between the TRAS Service Provider and ELEXON) to ensure that, in the following year, only relevant data items are submitted to the ELEXON. ELEXON shall, for this purpose, provide to the sub-committee an up-to-date privacy impact assessment to ensure that appropriate data security processes are in place.
