DCP 367 – TDIS - Clarification to the Final Supply Point Market Share (FSMS)

Draft Legal Text

Amend the definition of FMPS in Paragraph 7.2 of Schedule 30 as follows:

$(X*(STD / TTD)) – (X*FMPS)$

except where FMPS equals zero when calculated to five decimal places, in which case no credit or debit will be applied.

Where:

X is the total incentive pot value of the relevant section of the Scheme amended in line with the percentage change in CPI between the index published for the start and the end of the Scheme Year.

STD is the number of Confirmed Theft detections recorded by the Supplier Party.

TTD is the total number of Confirmed Thefts recorded in the Scheme Year.

FMPS is the final Metering Point market share of the Qualifying Supplier Party in the Scheme Year (being the Supplier's market share as a percentage of the Metering Points of all the Qualifying Suppliers based on the figures used at the start of the Scheme Year under paragraph 5, expressed to five decimal places).
