52A.5 This Section 2C shall only apply to Exit Points or Entry Points for which the import or export of electricity is metered directly by putting the full electrical current through the meter (known as ‘whole current metering’).

52B. DE-ENERGISATION AND RE-ENERGISATION WORKS

Requirements for those undertaking Works

52B.1 Any and all permitted Third Party Metering Works, De-energisation works and Re-energisation works carried out by or on behalf of the Gas Supplier pursuant to this Clause 52B shall only be carried out by a person working on behalf of a Gas Meter Asset Manager engaged by the Gas Supplier.

Good Industry Practice

52B.2 The Company and the Gas Supplier shall each act in accordance with Good Industry Practice when carrying out, or procuring the carrying out of, any and all works pursuant to this Clause 52B.

Works Undertaken by the Gas Supplier

52B.3 If the Gas Supplier wishes at any time to undertake Permitted Third Party Metering Works in respect of a Third Party Metering Point, then the Gas Supplier may (to the extent reasonably required in order to do so, and with no prior notice to the Company) De-energise the Exit Point and/or Entry Point to which the Third Party Metering Point relates in order to do so; provided that the Gas Supplier Re-energises that Exit Point and/or Entry Point as soon as reasonably practicable thereafter.

52B.4 If the Gas Supplier resolves to De-energise and/or Re-energise an Exit Point and/or Entry Point pursuant to Clause 52B.3, then the Gas Supplier shall:

52B.4.1 (subject to Clauses 52B.2 and 52C) decide on the extent and nature of the De-energisation Works and Re-energisation Works, and shall undertake such De-energisation Works and Re-energisation Works at its own cost; and

52B.4.2 comply with the Relevant Instruments and the Distribution Code in relation to the De-energisation Works and Re-energisation Works.

Company's Right to De-energise

52B.5 Notwithstanding the right of the Gas Supplier under this Clause 52B to install a Smart Metering Comms Hub Device and/or Relevant Alt HAN Equipment (and to keep

either or both of them installed), the Company may, at any time with no prior notice to the Gas Supplier, De-energise any Exit Point and/or Entry Point if:

- 52B.5.1 the Company is entitled to do so pursuant to the Connection Agreement relating to such Exit Point and/or Entry Point; or
 - 52B.5.2 the Company is entitled to do so pursuant to the Relevant Instruments or Section 2A;
 - 52B.5.3 the Company is instructed, pursuant to the terms of the Connection and Use of System Code or the Balancing and Settlement Code, to do so;
 - 52B.5.4 the Company reasonably considers it necessary to do so for safety or system security reasons;
 - 52B.5.5 the Company reasonably considers it necessary to do so to avoid interference with the regularity or efficiency of its Distribution System (including where the Smart Metering Comms Hub Device and/or Relevant Alt HAN Equipment is interfering with the Company's Distribution System);
 - 52B.5.6 an accident or emergency occurs or threatens to occur which requires the Company to do so to avoid the risk of personal injury to any person or physical damage to the property of the Company, its officers, employees or agents, or the property of any other person;
 - 52B.5.7 the rights of the Gas Supplier are suspended in accordance with Clause 54.2; or
 - 52B.5.8 subject to the terms of a replacement agreement, this Agreement is terminated, or the Gas Supplier ceases to be a Party in accordance with the provisions of Clause 54.
- 52B.6 If the Company resolves to De-energise an Exit Point and/or Entry Point pursuant to Clause 52B.5, then:
- 52B.6.1 (subject to Clauses 52B.2 and 52C) the Company shall decide on the extent and nature of the De-energisation Works required to De-energise the Exit Point and/or Entry Point;

- 52B.6.2 the Company shall Re-energise the Exit Point and/or Entry Point as soon as is reasonably practicable after the circumstance giving rise to such De-energisation has ended (and shall determine the extent and nature of the Re-energisation Works required to Re-energise the Exit Point and/or Entry Point); and
- 52B.6.3 there shall be no charge to the Gas Supplier in respect of such De-energisation Works and/or Re-energisation Works, except where the Company resolves to De-energise an Exit Point and/or Entry Point because of the Gas Supplier's Permitted Third Party Metering Works, the Smart Metering Comms Hub Device, the Relevant Alt HAN Equipment and/or a breach by the Gas Supplier of this Agreement (in which case the Gas Supplier shall pay the Company's reasonable costs incurred in relation to the De-energisation Works and the subsequent Re-energisation Works).

Other Matters

- 52B.7 For the avoidance of doubt, the Gas Supplier shall only be entitled to Re-energise an Exit Point and/or Entry Point that has been De-energised by (or on behalf of) the Gas Supplier pursuant to this Agreement.
- 52B.8 In undertaking De-energisation Works and Re-energisation Works as permitted by this Clause 52B, the Company may reposition the Smart Metering Comms Hub Device (or any part of it) on the meter board (but may not otherwise alter the position of the Smart Metering Comms Hub Device).
- 52B.9 Subject to any contrary agreement between the Gas Supplier and the Electricity Supplier, where the Gas Supplier has no further need for the Smart Metering Comms Hub Device and/or Relevant Alt HAN Equipment (and there is no reasonable prospect of the Gas Supplier, or any future Gas Supplier, needing to use that Smart Metering Comms Hub Device and/or Relevant Alt HAN Equipment in the future), then the Gas Supplier shall remove that Smart Metering Comms Hub Device and/or Relevant Alt HAN Equipment (or, to the extent consistent with Good Industry Practice, render either or both of them inoperable in accordance with Good Industry Practice). Where a Smart Metering Comms Hub Device and/or Relevant Alt HAN Equipment has been

rendered inoperable pursuant to this Clause 52B.9, then the Company shall at any time thereafter be entitled to remove and dispose of that Smart Metering Comms Hub Device and/or Alt HAN Equipment.

Non-Interference

- 52B.10 The Company shall ensure that the Gas Supplier (and its Gas Meter Asset Manager when acting in its capacity as such) is entitled to interfere with the Distribution System to the extent it is necessary to do so in exercising the Gas Supplier's rights or complying with its obligations under this Clause 52B or Clause 52C. The Gas Supplier shall not (and shall ensure that its Gas Meter Asset Manager when acting in its capacity as such shall not) otherwise interfere with the Distribution System (subject to any contrary agreement between the Gas Supplier and the Company).
- 52B.11 The Gas Supplier shall ensure that the Company is entitled to interfere with the Smart Metering Comms Hub and/or Relevant Alt HAN Equipment to the extent it is necessary to do so in exercising the Company's rights or complying with its obligations under this Clause 52B or Clause 52C. The Company shall not otherwise interfere with the Smart Metering Comms Hub and/or Relevant Alt HAN Equipment (subject to any contrary agreement between the Gas Supplier and the Company).
- 52B.12 The Gas Supplier shall indemnify the Company against all actions, proceedings, costs, demands, claims, expenses, liability, loss or damage arising directly from physical damage to the property of any person caused by the Gas Supplier's Gas Meter Asset Manager in exercising the Gas Supplier's rights under this Clause 52B (but excluding liability for any loss of profit, loss of revenue, loss of use, loss of contract or loss of goodwill, and subject to a cap of £1 million per incident or series of related incidents).
- 52B.13 For the purposes of Clause 53.4, the Company and the Gas Supplier agree that matters relating to Smart Metering Comms Hub Devices and/or Relevant Alt HAN Equipment that are not the subject of express rights and obligations under this Section 2C (including the standard to which such devices and/or equipment are to be maintained) are outside of the subject matter of this Agreement (and neither the Company nor the Gas Supplier waive their rights or remedies under Clause 53.4 in respect of the same).

52C. METER OPERATION CODE OF PRACTICE

- 52C.1 The Gas Supplier shall procure that the Gas Meter Asset Manager which carries out Permitted Third Party Metering Works, De-energisation Works and/or Re-energisation Works pursuant to Clause 52B shall be party to the Retail Energy Code, and shall comply with the Meter Operation Code of Practice in relation to those works.
- 52C.2 The Company shall be party to the Retail Energy Code, and shall comply with the Meter Operation Code of Practice.

52D. PROVISION OF INFORMATION

Dangerous Incidents

52D.1 Where the Gas Supplier (or any of its contractors or agents) receives a report or enquiry from any person about any matter or incident that does or is likely to:

52D.1.1 cause danger or require urgent attention in relation to the supply or distribution of electricity in the Company's Distribution Services Area through the Distribution System; or

52D.1.2 affect the maintenance of the security, availability and quality of service of the Distribution System,

the Gas Supplier shall notify the Company of such report or enquiry in a prompt and appropriate manner having regard to the nature of the incident to which the report relates. The Gas Supplier shall notify the Company by telephone or post using the telephone number and postal address identified in the Company's Security and Safety of Supplies Statement or such other telephone number as may from time to time be notified in writing by the Company.

Damage or Interference

52D.2 The Gas Supplier shall (and shall ensure that its contractors and agents shall) in a prompt and appropriate manner having regard to the nature of the incident, inform the Company where the Gas Supplier has (or in the case of the Gas Supplier's contractors and agents, such contractors and agents have) reason to believe:

52D.2.1 that there has been damage to the Electrical Plant or Electric Lines owned by the Company; or

52D.2.2 that there has been interference with any electricity metering equipment at an Entry Point or an Exit Point on the Company's Distribution System that has prevented such metering equipment from correctly registering the quantity of electricity supplied,

unless the Gas Supplier believes that the damage or interference was caused by the Company.

52D.3 Where the Gas Supplier has reason to believe that any damage or interference reported by it (or by its contractors or agents) under Clause 52D.2 has been caused by a criminal act, it shall provide the Company with such information as is reasonably required for investigating the incident and resolving any safety concerns arising out of it.
