Action	For Decision

Accession Applications

This paper puts forward any new Accession Applications for consideration by the Panel in accordance with Clause 4 of the DCUSA.

1. ACCESSION PROCESS

- 1.1 In accordance with Clause 4 of the DCUSA, the Panel is asked to consider the Accession Applications submitted. The Panel may only reject an application if it considers that an Applicant has no reasonable prospect of satisfying the relevant conditions precedent set out in Clause 16 and/or 37 of the DCUSA.
- 1.2 If an application is accepted, the Panel is required to:
 - notify each Party and the Authority of the Applicant identity, the information that will become its Party Details, and to prepare an Accession Agreement for the Applicant; and
 - make a recommendation to the Board that, upon receipt of the Accession Agreement duly executed by the Applicant, it executes the Accession Agreement on behalf of all Parties.

2. ACCESSION APPLICATIONS RECEIVED

- 2.1 The Secretariat notes that between the previous Panel meeting and the drafting of this paper, three new Accession Applications have been received.

Applicant/s	Party Category	Date of Licence/ REC Accreditation	MPID	Contract Manager
RENANTIS ENERGY TRADING SRL. UK BRANCH	Supplier	15 February 2024	NXTS	Simone Giacchè
ICD ENERGY METERING SERVICES LIMITED	Safe Isolation Provider	31 August 2021	ICME	Stuart Heyworth
E E SOLUTIONS LIMITED	Supplier	01 April 2024	EGML	George Christian

- 2.2 It should be noted that the MPID of NXTS is not live in Market Domain Data (MDD) but the Secretariat has seen confirmation that the Applicant, RENANTIS ENERGY TRADING SRL. UK BRANCH, have provided documentation confirming that the ELEXON PAB passed a resolution in which the MPID NXTS was referenced and that the applicant will follow up with Elexon to investigate why this is still not in the MDD catalogue.
- 2.3 For the MPID ICME we have confirmed that this has been reserved this MPID via the MDD Coordinator. The Panel should note that this is in line with the expectations set out in relevant REC information page on the REC Portal which describes the process to be followed one of which is to 'Set up a Market Participant Identifier (MPID)' which notes that an entity without an MPID would need to "request/reserve/agree a unique MPID" and that the next step is for the entity to 'Demonstrate the ability to successfully send and receive Market Messages through the Data Transfer Network (DTN)'.
- 2.4 With respect to the application from EE Solutions Limited, It should be noted that this is tied into the Withdrawal application for Eco Green Management Ltd who have also initiated a Party Novation application via the BSC, which will novate all rights and obligations under the BSC of Eco Green Management Ltd to E E Solutions Limited. The application will be presented to the BSC Panel at the 14 March 2024 meeting following the proposed licence transfer which is set out the [notice](#) issued by Ofgem on 25 January 2024.

3. RECOMENDATIONS

- 3.1 For each Accession Application, the DCUSA Panel is invited to:
- **CONSIDER** the Accession Application;
 - **INSTRUCT** the Panel Secretary to notify each Party and the Authority of the Applicant's identity and the information which will form the Party details;
 - **INSTRUCT** the Panel Secretary to prepare an Accession Agreement for the Applicant; and
 - **RECOMMEND** that the Board executes the Accession Agreement on behalf of all Parties.

4. ATTACHMENTS
