Nature of Issue	
Currently only 2 alternatives are allowed alongside an original proposal. This has recently caused an issue (DCP406) where 2 variables had 2 alternatives requiring a complex approach so that all 4 options could be presented to the Authority. However, if 3 alternatives had been allowed then this would have been straight forward.	

Solution Overview – If Known	
Solution Description	It is proposed that the current allowance of 2 alternatives is increased to 3. This is not expected to cause any significant issues and would avoid a repeat of this same situation.
Lead Time For Implementation	The earliest opportunity following an Authority approval
