PARTY	SOLUTION (A / R)	IMPLEMENTATION DATE (A / R)	WHICH DCUSA OBJECTIVE(S) IS BETTER FACILITATED?	COMMENTS
<b>DNO PARTIES</b>				
Eastern Power Networks	Reject	Reject	We believe that this change would have a negative impact on DCUSA General Objective 4. As we believe allowing an additional option could result in the voting being more evenly spread and potentially not providing the Authority with a clear steer to the views of DCUSA parties. A third option would have only been required for one change (out of 440 changes) and a solution was found for this using the existing arrangements of allowing just two options.

<b>SUPPLIER PARTIES</b>				
EDF ENERGY CUSTOMERS LIMITED	Accept	Accept	4. The promotion of efficiency in the implementation and administration of the DCUSA The restriction in the number alternative variations recently caused an issue for DCP 406 'Access SCR: Changes to CCCM' where two variables had two alternatives that required a complex approach so that all four options could be presented to the Authority, which they had requested. However, if three alternatives had been allowed then this would have been straight forward.	

SSE Energy Supply Ltd (SSE Business Energy)	Accept	Accept	We do not have any concerns with the proposed DCUSA objective.
