

# **DCUSA CP 419 – Pre-Notification of Planned Supply De-Energisations**

## **Draft Legal Text**

### **Section 2A ‘Distributor to Supplier/ Generator Relationships**

#### **Add new Clause 30,19 as follows:**

##### **Advance notice to the Company of planned works**

30.19 Where the User plans to de-energise a whole current metering point, with a smart meter installed, the User shall give the Company at least one (1) Working Day's advance notification. This notice should be sent using the appropriate Market Message as defined in the Energy Market Data Specification

### **Section 2G ‘Distributor to Crowded Meter Room Coordinator Relationships’**

#### **Add new Clause 52X.9 as follows:**

##### **Advance notice to the Company of planned works**

52X.9 Where the Crowded Meter Room Coordinator plans to de-energise a whole current metering point, with a smart meter installed, the Crowded Meter Room Coordinator shall give the Company at least one (1) Working Day's advance notification. This notice should be sent using the appropriate Market Message as defined in the Energy Market Data Specification

### **Section 2H ‘Distributor to SIP Party Relationships**

#### **Amend Clause 52Z.7 as follows:**

##### **Advance notice to the Company of Safe Isolation Works**

52Z.7 The Safe Isolation Provider shall give the Company at least one (1) Working Day's advance notification of the day on which the Safe Isolation Provider is to undertake Safe Isolation Works at a premises. **This notice should be sent using the appropriate Market Message as defined in the Energy Market Data Specification**

#### **Delete the below Clauses:**

~~52Z.8 Regarding the notification required by Clause 52Z.7:~~

~~52Z.8.1 if the Company (in conjunction with other distributors, potentially via the Energy Networks Association) has made an app available for the purposes of making such notification, then the Safe Isolation Provider shall use that app; or~~

~~52Z.8.2 if no such app has been made available, but the REC has been modified so that there is a Market Message for the purposes of making such notification, then the Safe Isolation Provider shall use that Market Message; or~~

~~52Z.8.3 if neither of the two option above applies, then the Safe Isolation Provider shall not be required to provide such notification.~~
