SIG Headline Report

1. Synopsis

- 1.1 This report sets out the key decisions made at a DCUSA Standing Issues Group (SIG) meeting on 31 January 2025. The minutes of the meeting are available [here](#) on the DCUSA website.

2. Update of the three previously discussed ECR Change Requests

- 2.1 The SIG picked up discussing the three ECR change requests that were initially raised at the SIG meeting on 29 November 2024.
- 2.2 It was noted that these three ECR Change Requests had been put on hold to allow the LTDS (long Term Development Statement direction) project to complete its first phase.
- 2.3 It was noted to the SIG that the DCUSA panel were keen for these three ECR change requests to be progressed once the LTDS project had completed its first phase and as such the purpose of Januarys SIG meeting was to seek an update from DNOs on the LTDS project and to understand if the three ECR change requests could be progressed.
- 2.4 A SIG Member advised that after discussing these ECR Change Requests with their technical expert, progress could be made on all three ECR change requests however, the LTDS project would need to be kept informed on the approach the SIG wanted to take.
- 2.5 The SIG Chair proposed setting up a SIG Subgroup of members/parties interested in the ECR Change Requests to work through the existing three ECR Change Requests and any future raised ECR Change Requests.
- 2.6 SIG members agreed that this would be the approach taken forwards and that the subgroup would incorporate all the ECR change requests to ensure consistency. It was also agreed that this subgroup would feed into the LTDS project.
- 2.7 It was confirmed that overall data quality was an area the LTDS project was looking at.
- 2.8 The Chair agreed to attend an LTDS meeting to provide an update on the current three ECR changes and to advise them that they would keep them informed of the progress of the three existing changes plus any future Change Requests that get raised.
- 2.9 It was noted that the date for the first ECR Change Request Subgroup would be sometime in March.
- 2.10 For more information on the LTDS project please click [here](#)

3. Next SIG Meeting – 28 February 2025

- 3.1 At present no new issues have been raised however, it is expected that DIFs 69, 70 and 71 will be raised for discussion at the February SIG meeting, possibly as newly raised DIFs as the proposer for these three issues has advised they're likely to change the approach based on reviewing the RFI responses.

4. Recommendations

- 4.1 The DCUSA Panel is invited to:

- **NOTE** the contents of this paper.
