1 Summary

What?

- 1.1 Several housekeeping items have been added to the housekeeping register over time that are of a simple textual tidy up nature. This change seeks to amend the DCUSA regarding those.
- 1.2 The items in the housekeeping log have been reviewed, and those that this change seeks to address are captured below (where the acronym HK stands for housekeeping):
 - HK124: 'Correction of typographical error in Clause 21.2B'
 - HK125 'Remove references to 'fax', 'facsimile' and 'telex' to coincide with the switch-off of the Public Switched Telephone Network (PSTN) in 2025'
 - HK126: 'Correction of typographical error in Section 1C paragraph 10.26.3'
 - HK128: 'Definition of MPAS'
 - HK129: 'Duplicate text in Paragraphs 104 and 105 in Schedule 16.'
 - HK130: 'Correct Party/person referencing in Schedule 31 'Embedded Capacity Register'
 - HK131 'Correction of description of the Parties to the DCUSA within the Introduction section of the DCUSA'

Why?

- 1.3 This CP has been raised to resolve the issues that are periodically identified within the DCUSA which are recorded in the housekeeping log maintained by the DCUSA Panel. The implementation of this CP will ensure that the legal text throughout the DCUSA document is correct.

How?

- 1.4 By completing a review of the items recorded in the housekeeping log and subsequently revising the DCUSA document to incorporate the required amendments.

2 Governance

Justification for Part 1 and Part 2 Matter

- 2.1 As the amendments detailed in this Change Proposal are for housekeeping purposes, there is no material impact on Parties and thus, does not meet the criteria for it to be considered a Part 1 Matter.

Requested Next Steps

- 2.2 This Change Proposal should:
 - Be treated as a Part 2 Matter;
 - Be treated as a Standard Change; and
 - Proceed to the Change Report phase.

3 Why Change?

- 3.1 A number of housekeeping items have been added to the housekeeping register over time that are of a simple textual tidy up nature. The housekeeping items covered by this change include the following:

HK124: Correction of typographical error in Clause 21.2B

- 3.2 In Clause 21.2B, the following correction should be made (noting that this Clause was updated as a result of DCP 142 'Using D2021 for all invoices/credit notes if it is used at all').

21.2B Where the Company submits, and the User agrees to receive, accounts by sending an electronic invoice it shall use an electronic invoice for all of that User's accounts (including revised accounts and credit-notes). For the avoidance of doubt, where this Clause 21.2B applies, Clause 59.4 shall apply to the sending of accounts during any period in which the ~~Date~~ Data Transfer Network is unavailable.

HK125: Remove references to 'fax', 'facsimile' and 'telex' to coincide with the switch-off of the Public Switched Telephone Network (PSTN) in 2025

- 3.3 In light of the upcoming switch-off of the Public Switched Telephone Network (PSTN) in 2025, it will be necessary to either remove or replace mentions of references to 'fax', 'facsimile' and 'telex' communications as it will no longer be an available method of communication.

- 3.4 A recent search of the DCUSA has identified the following references to these terms:

- Section 2A - Clause 35: 1 result found
- Section 2B – Clause 51: 1 result found
- Section 2C – Clause 52F: 1 result found
- Section 2D – Clause 52K: 1 result found
- Section 2D – Clause 52L: 1 result found
- Section 2F – Clause 52U: 1 result found
- Section 3 – Clause 59: 4 results found
- Schedule 2B – Clause 23 in Section 3: 3 results found
- Schedule 2B – Clause 24 in Section 4: 3 results found
- Schedule 2C – Paragraph 8: 2 results found
- Schedule 8 – Paragraph 11: 1 result found
- Schedule 10 – Paragraph 25 in Annex 4: 2 results found
- Schedule 10 – Paragraph 26 in Annex 4: 2 results found
- Schedule 11: 1 result found

HK126: Correction of typographical error in Section 1C paragraph 10.26.3

- 3.5 In Section 1C, a missing full stop needs to be added to the end of paragraph 10.26.3. This typographical error was introduced as the result of a CP.

10.26.3 if the variation to the Lead Code is approved, but the Consequential Change is not approved in accordance with this Agreement, then the panel (or other relevant body) under the Lead Code may refer the decision in respect of the Consequential Change to the Authority (as if Clause 13.17 applied, and as if such body had been designated under Clause 10.2.4);

provided that such referral must be made within 30 days after the later of the approval under the Lead Code or the rejection under this Agreement

HK128: Definition of MPAS

- 3.6 The defined term 'MPAS' within the DCUSA is currently defined as “*has the meaning given to that term in the Distribution Licence, and which includes the Electricity Retail Data Service under the REC and the Supplier Meter Registration Service under the BSC.*”. However, MPAS is not actually defined within the Distribution Licence and the correct term would be Metering Point Administration Service. It is proposed that the defined term in the DCUSA is updated as follows:

MPAS	<i>has the meaning given to thatthe term “Metering Point Administration Service” in the Distribution Licence, and which includes the Electricity Retail Data Service under the REC and the Supplier Meter Registration Service under the BSC.</i>
-------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

- 3.7 Alternatively, the DCUSA could be amended such that the term MPAS is replaced with Metering Point Administration Service and in turn, where it is used throughout the document, those references are also replaced.

HK129: Duplicate text in Paragraphs 104 and 105 in Schedule 16.

- 3.8 Paragraphs 104 and 105 in Schedule 16 are exactly the same and therefore the suggestion is that one should be removed. The Panel should note that this issue has existed for some time and came about due to the implementation of DCP 332 'Appropriate Treatment and Allocation of Last Resort Supply Payment Claims' and DCP 333 'Appropriate Treatment and Allocation of Eligible Use of System Bad Debt Costs' which introduced the SoLR and Bad Debt adders into Schedule 16. At the time of development of those change proposals, it wasn't known whether one or both would ultimately be approved and implemented and therefore the legal drafting for each tried to account for both scenarios. In doing so, the legal drafting for DCP 332 included Paragraph 104 and the legal drafting for DCP 333 included Paragraph 105 (see screenshots included below). Both Change Proposals were approved and implemented, leading to the duplication seen today.
- 3.9 It should be noted that Paragraph 24.1 in both Schedules 17 and 18 cross reference Paragraphs 100 to 104 in the CDCM (i.e., Schedule 16) and no cross reference to Paragraph 105 in Schedule 16 appears to exist within the DCUSA. Therefore, the Secretariat's view is that Paragraph 105 in Schedule 16 can be safely removed.

HK130: Correct Party/person referencing in Schedule 31 'Embedded Capacity Register'

- 3.10 Paragraph 3.2 of Schedule 31, states that “*Any person (whether or not a Party) may, at any time, apply to the Panel requesting that the Agreed Version is altered....*”, but that Paragraph 3.3.1, which explains what information the Secretariat is to include when inviting representations or objections with respect to the request, states that we are to ensure we set out “*identity of the Party that made the request*”.
- 3.11 Given the text in paragraph 3.2, which states 'Any person', it would make sense for paragraph 3.3.1 to also reference 'person' or even non-capitalised 'party'.

- 3.12 The legal drafting for DCP 350 'CREATION OF EMBEDDED CAPACITY REGISTERS' was checked to confirm whether it contained the word 'Party', and it was confirmed that it did and so is not an error in transposing the text from legal drafting into the document itself. An extract of the text in question is set out below for completeness:

3. AMENDMENTS TO THE EMBEDDED CAPACITY REGISTER

- 3.1 *The Panel shall oversee the process by which the Agreed Version of the Embedded Capacity Register may be altered. Such alteration may include the addition to or removal from the Agreed Version of a specific data item, and/or the alteration of the definition of a data item.*
- 3.2 *Any person (whether or not a Party) may, at any time, apply to the Panel requesting that the Agreed Version is altered by notice in writing to the Panel Secretary.*
- 3.3 *Where the Panel Secretary receives such an application, it shall ensure that the matter is added to the agenda for the next Panel meeting occurring more than 10 Working Days after receipt of such application, and shall give notice to all the Parties at least 10 Working Days before the Panel meeting in question:*
- 3.3.1 *setting out the identity of the Party that made the request*
- 3.3.2 *specifying the date on which the Panel is due to consider the matter; and*
- 3.3.3 *inviting representations or objections with respect to the request before that date.*

HK131: Correction of description of the Parties to the DCUSA within the Introduction section of the DCUSA

- 3.13 Paragraph (A) in the 'Introduction' section of the DCUSA, lists that 'certain electricity generators' are part of the composition of the Parties to the DCUSA. This wording is intended to reflect the Party Category of CVA Registrants which was previously known as the Distributed Generators Party Category.
- 3.14 Given the way paragraph (A) is worded for other types of Parties it might be reasonable to keep the reference to 'certain electricity generators' however, there may also be a way of improving the words to better reflect what function/role the CVA Registrants play (e.g., it could say something like "the registrants of certain electricity generators" or could just state "the CVA Registrant Parties")
- 3.15 An extract of the text in questions is set out below for completeness:

INTRODUCTION

- A *The Parties comprise electricity distributors, electricity suppliers, certain gas suppliers, certain electricity generators, certain metering companies, the Crowded Meter Room Coordinator, and the OTSO Party.*
- B *The DNO Parties and IDNO Parties are required, by their licences, to be party to, comply with, and maintain this Agreement.*
- C *The Supplier Parties are required, by their licences, to be party to, and comply with, this Agreement.*
- D *The CVA Registrants are under certain obligations, under other industry agreements, regarding distribution use of system arrangements, and have agreed to accede to this Agreement in order to meet those obligations.*

4 Solution and Legal Text

Legal Text

- 4.1 A set of proposed amendments has been set out in Annex 1 of this Change Proposal and which are designed to resolve the relevant housekeeping log items noted in sections 1 and 3 above. The proposed amendments will be reviewed by DCUSA Ltd.'s legal advisors, noting that some clauses are updated by subsequent changes notably for MHHS, including for item 125 where reference to email may be more appropriate than simply removing references to "fax" etc.

Text Commentary

- 4.2 The proposed amendments are designed to resolve each of the relevant housekeeping log items.
