## SIG Headline Report

### 1. Synopsis

- 1.1 This report sets out the key decisions made at a DCUSA Standing Issues Group (SIG) meeting on 27 June 2025. The minutes of the meeting are available [here](#) on the DCUSA website.

### 2. DIF 83 'Housekeeping Log Updates'

- 2.1 It was agreed at the June Panel meeting that a CP was required to review and update the items in the housekeeping log and therefore the Secretariat raised DIF 83 to see if there was a willing sponsor to raise the CP or whether SIG members would like to instruct the Secretariat to raise the CP.
- 2.2 Upon reviewing the log members discussed that it may be sensible to break the items up into multiple CPs as below:
- Item 116 – This related to consequential changes to DCUSA based on two ENA engineering documents being updated. Members agreed this should be progressed as a separate CP and may be more than just a housekeeping change.
  - Item 123 – It was suggested that this could be reviewed in one or two CPs, and it may be beneficial to see if there is a way of removing reference to company names and seeing if it could be future proved in some way.
  - Items 124 to 131 – It was agreed that these were simple housekeeping changes and that these could be addressed in one CP.
- 2.3 One member noted that housekeeping is not a defined term and maybe it would be beneficial to agree a definition. The Secretariat took an action to investigate this.
- 2.4 After further discussion, some members felt that more time was needed to digest the items before voting. The Secretariat at this stage took an action to breakdown the items into four separate issues and reissue to members. Parties would then have more time to decide if they wished to raise one or more of the changes and at the next meeting any outstanding items could be taken to vote for the Secretariat to raise the CP.

#### Post Meeting Note:

- 2.5 Post the meeting on 30th June, a CP was submitted by UKPN to address items 124 to 131. This CP will be raised at the July Panel. Therefore, the Secretariat will look at raising issues for items 116 and 123.

### 3. Next SIG Meeting – 25 July 2025

- 3.1 At present no new issues have been raised.

## 4. Recommendations

---

4.1 The DCUSA Panel is invited to:

- **NOTE** the contents of this paper.
