DCUSA Digitalisation Development Group (DDDG)

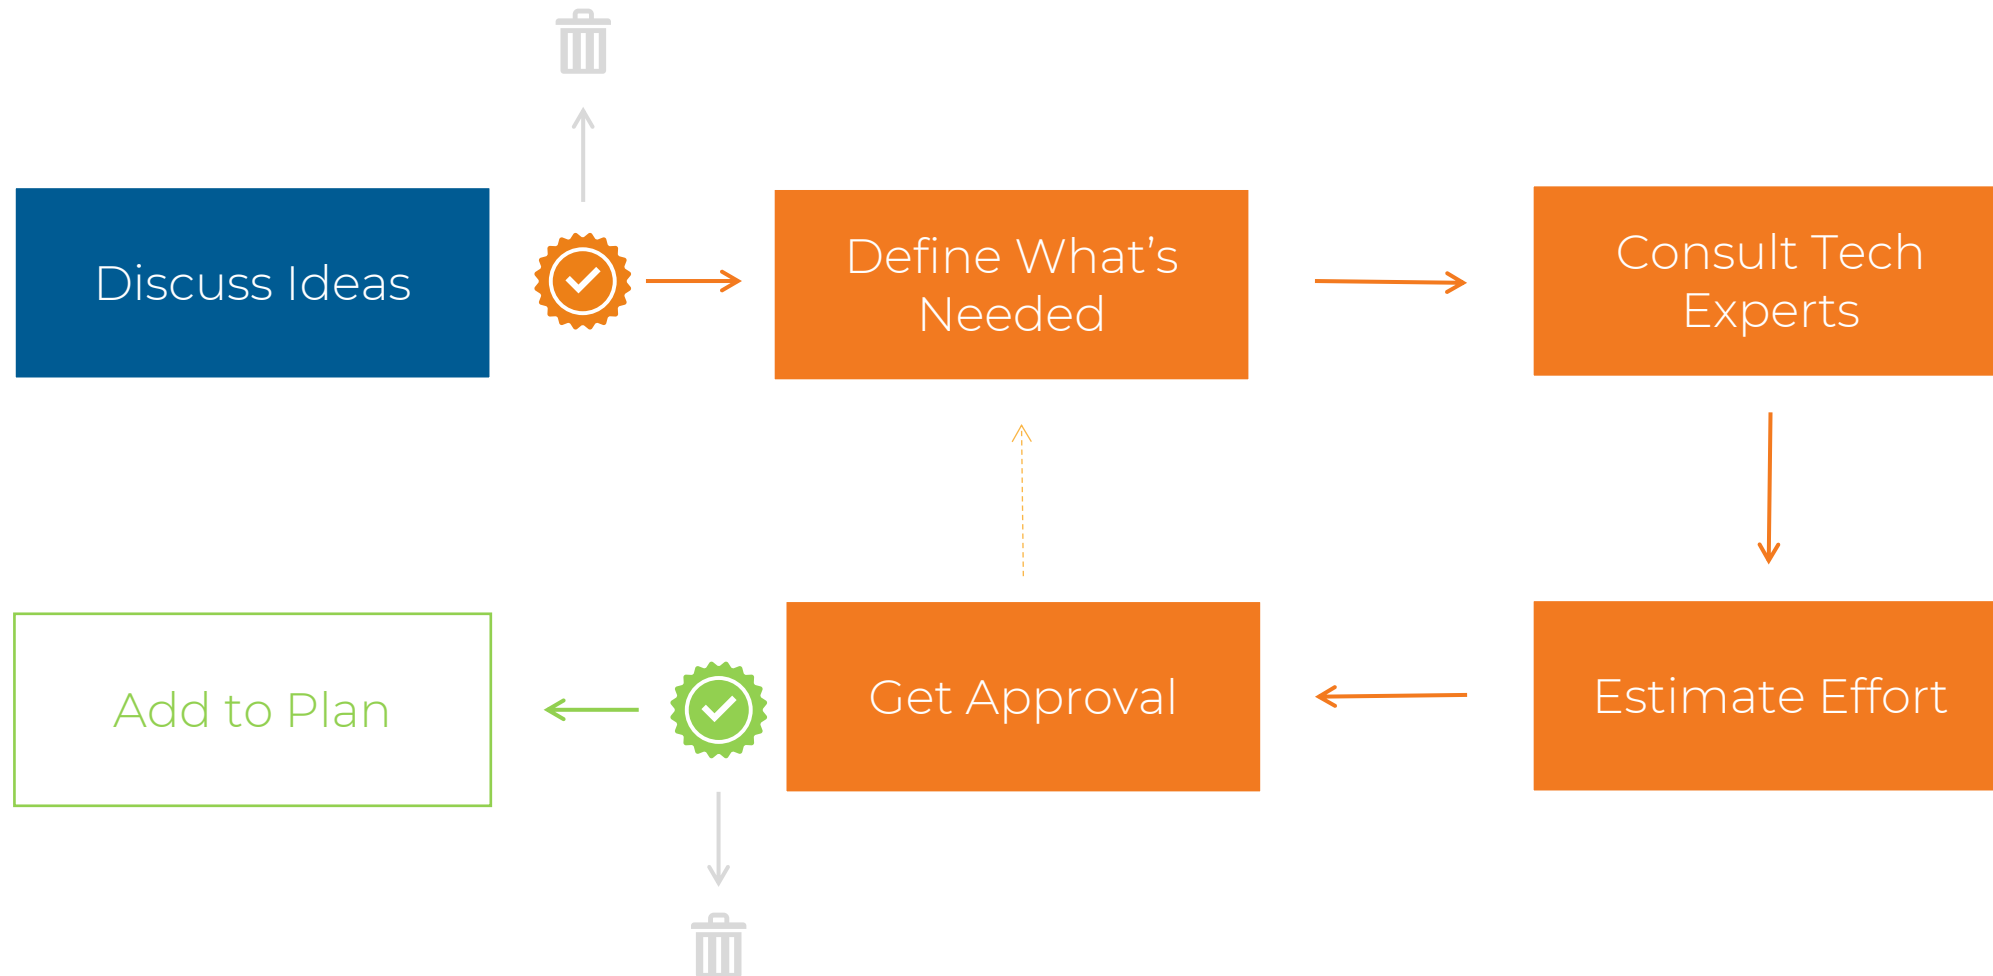

Meeting 4

WHY DDDG EXISTS

1. **Review feedback** and discuss **new ideas** concerning improvements to the DCUSA website and digital services.
2. We are here to assess, **prioritise**, and help turn ideas into **real developments**

HOW IT WORKS

ACTIONS FROM LAST MEETING

03/01 – The Chair to create a mock view of the charging data and present to the DCMDG at the July meeting.

03/02 - Chair to progress new development idea - making it easier for users to copy a particular line or cell on the party list.

03/03 - Chair to progress new development idea - adding the ability to filter the Change Register by CPs that are live, on hold, or live but stagnant.

03/04 - Chair to progress new development idea – making the circular progress visuals on the Change Register clearer and consistent with the delivery schedule.

03/05 - Chair to progress new development idea – making the overview page of the Change Register (with CPs grouped by stage) more obvious/easier to find and adding the ability to filter by impacted parties.

03/06 - Chair to progress new development idea – on the delivery schedule, brief explanations of each stage to be added when you hover the curser over them.

03/01 – OFGEM'S REQUEST

As a DCUSA user,

783

I want a centralised dashboard that displays the Tariff Summary outputs from all 14 DNO CDCM charging models,

So that I can more easily view, understand, compare and interpret tariff data across DNOs.

DCUSA Board (June) Action:

- Present a simple mock design of the dashboard to the DCMDG for review and feedback.

- Strong support for the idea with users aligning with Ofgem's concerns.
- General agreement on the value of a centralised and standardised hub.
- Some stakeholders want us to include all tariff data but recognise challenges ahead (EHV data).
- MVP relying on manual uploads raised accuracy concerns
- No objections raised for API integration in the future
- A DDDG sub-group to be created to support development from experts.

JULY BOARD FEEDBACK

ALL ITEMS APPROVED

03/01

User Story.

828

As a DCUSA user,

I want the ability to copy either a specific cell value or an entire row of data,

So that I can quickly and accurately extract and reuse the data elsewhere.

03/06

User Story.

831

As a DCUSA user,

I want to understand what each stage in the delivery schedule means (i.e. 'Initial Assessment', Definition'),

So that I can better understand the stages of the DCUSA Change proposal process.

ALL ITEMS APPROVED

03/03

User Story.

829

As a DCUSA user,

I want the existing Part Matter filter buttons to be replaced with a single dropdown,

So that the Change register sections looks cleaner.

User Story.

830

As a DCUSA user,

I want to filter change proposals by their current state,

So that I can see and focus on proposals based on their active state.

03/05

User Story.

834

As a DCUSA user reviewing the Change Register,

I want to filter Change Proposals based on the type of party being impacted,

So that I can more easily identify change proposals that are relevant to my organisation.

OTHER DIGITALISATION UPDATES

- Phase 4 live demo was held on 14 July.
- Next batch of updates to go live Tuesday 29 July

CM

This is really fab, going to be a great help to me

AB

These changes look great. Will there be a further video added to the library to cover these?

MG

Thanks great session and really like the changes have to jump off

FEEDBACK FROM THE WEBSITE

FEEDBACK FROM THE WEBSITE

On the Committees and Forum pages (like the DDDG) the layout is a bit confusing and not very clear. For example on the associated activities section the first column called Related Committee & Group has a link and every link on the table goes back to the same page. What is the purpose of this, can it be removed? Also the Associated Activities and the Related Documents has much of the same content. do we really need two sections? can these be merged?

Section

1B

I'd like to be able to download the text of user-selected DCUSA clauses direct into our DCUSA Table of Accountabilities. It's not a complex extract, all we need is the text for every clause and paragraph from the Main Body and Schedules in the format shown (see attachment). Or at least similar format that could allow import of the user-selected clauses/paragraphs into that excel spreadsheet format.

in Clause 8.10.
