

**ElectraLink**

## **CENTRALISED ACCESS TO NETWORK CHARGING INFO**

# AGENDA

- About the DDDG
- Objective for today

# FEEDBACK #001

**PROPOSOR:** OFGEM

Don't forget to mention  
the disclaimer

# THE PROBLEM

## Hard to Find and Use

- Network charging info (i.e. the CDCM) is hard to find and use.
- They follow templates but each DNO stores and labels things slightly differently.
- Confusing for users to understand and compare charges across DNOs.

# THE PROPOSED SOLUTION

**As a** DCUSA user,

783

**I want** a centralised dashboard that displays the Tariff Summary outputs from all 14 DNO CDCM charging models,

**So that** I can more easily view, understand, compare and interpret tariff data across DNOs.

## **DCUSA Board (June) Action:**

- Present a simple mock design of the dashboard to the DCMDG for review and feedback.
