

Embedded Capacity Register - Data Item Change Request Notice

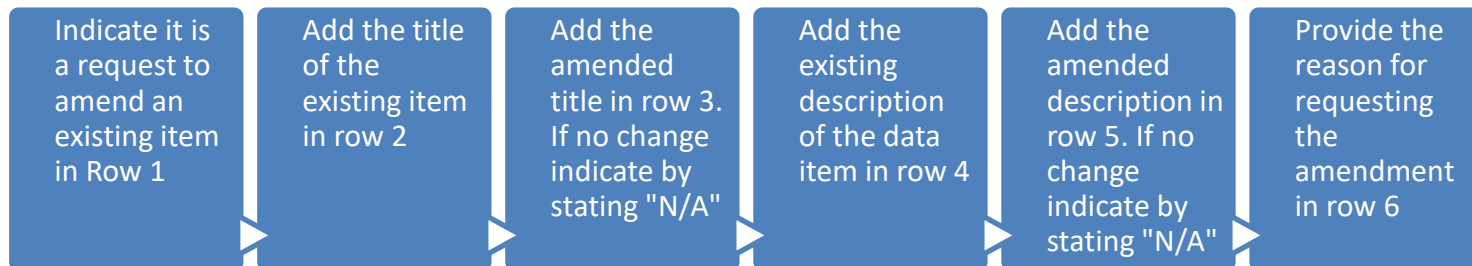

Originator Details	
Name:	Steve Mould
Company:	UK Power Networks (on behalf of the ENA's LTDS CIM WG)
Email Address:	Steve.mould@ukpowernetworks.co.uk
Telephone Number:	07875 115317

What do I need to provide in the table below?

New Item and Description

Amend Existing Item and/or Description

1. New or Amended Item?	2. Original Data Item (If applicable)	3. New/ Amended Data Item (if applicable)	4. Original Description (If Applicable)	5. New/ Amended Description (if applicable)	6. Reason for Change
New		LTDS mRID		<p>The mRID (Master Resource Identifier) is a unique identifier used within the Common Information Model (CIM) to ensure global uniqueness in network model exchanges. The mRID is designed to facilitate interoperability across different systems.</p> <p>The CIM standard is maintained by the International Electrotechnical Commission (IEC) and aims to standardize the exchange of information about electrical networks.</p>	<p>The publication of Long-Term Development Statements (LTDS), describing the characteristics and development of GB electricity distribution networks, is a long-standing obligation on Distribution Network Operators (DNOs), mandated through a direction, pursuant to paragraph 25.2 of the standard conditions of the Electricity Distribution Licence and described in detail in the Form of Long-Term Development Statement (FoS).</p> <p>The revised FoS introduces important new requirements for grid model data to be provided using the Common Information Model (CIM) and</p>

				<p>The mRID is a 35 character alphanumeric identifier which takes the following form - _a1eb9946-3599-48d4-8f12-22807b4821cc</p>	<p>for the publication of Capacity Heatmap data.</p> <p>LTDS Stage 2, due to be published in May 2026, requires that <i>'the activities of this Stage create future Models which ensure that the LTDS ConnectivityNodes exist whose identifiers are referred to in ECR entries for accepted-to-connect generation.'</i></p> <p>More information regarding the LTDS reform can be found here: Link</p>
