# DDDG Technical Subgroup - Centralised Tariff Dashboard

Meeting 5 – Board Update on MVP

# AGENDA

1. Board update – MVP outcome
2. Guidance Document

## BOARD UPDATE

# MVP APPROVED

## Outcome

- Scope agreed has been formally approved
- Build commences in April 2026 with Xanda
- Board signalled support for phase 2 features subject to the standard approval process

# DESIGN CONSIDERATIONS

- Show LDNO names alongside IDs for further clarity
- Historical data should build over time (accumulate year-on-year)
- Future proof design – accommodate tariff structure changes (design principle)
- Subgroup remains an open forum for visibility and feedback.

# DASHBOARD DELIVERY TIMELINE

2026	
<b>March</b>	Board sign-off on MVP scope
<b>April</b>	Initial Extraction & build
<b>May</b>	MVP launch
<b>June</b>	User testing (via technical subgroup)
<b>July</b>	MVP wider-release
<b>August</b>	Start Phase 2

# GUIDANCE DOCUMENT

## **What was agreed at the Feb Board:**

- Pursue guidance document rather than formal code change
- Identify and capture charging statement standardisation issues

## **Position:**

- Pass on to the relevant group (led by Chris Ong).
- Would not publish a formal guidance document for material that sits outside of DCUSA's direct governance.

# THE PLAN

## **Our job:**

- Identify all the issues and articulate what can potential be standardised

## **Their job:**

- Take it forward to ensure publishers follow this guidance.

# THE CONTENT

<b>Tariff Naming</b>	Common mislabels What naming convention?
<b>Layout</b>	What inconsistencies exist? Which DNOs do this well?
<b>LLFC</b>	Missing / inconsistencies?
<b>Release Notes</b>	What this covers? When it should be added? Anomalies and mid-year changes
<b>Contact details</b>	What info? Where?
