

### NESO ECR Change Request Notice – DCUSA Party Comments

Date Received	Company	Comments
12/01/2026	NGED	<p>Please find below comments on the NESO change request</p> <p>Objection to Amendment 2 – Publication of a GSP Lookup Table</p> <p>We object to the proposal for DNOs to publish and maintain a GSP lookup table, as this would:</p> <ul style="list-style-type: none"> <li>• Require DNOs to maintain mappings to third party datasets (e.g., Elexon),</li> <li>• Introduce additional and unregulated responsibilities outside the remit of DNOs, and</li> <li>• Be more appropriately managed centrally by bodies such as ENA, Elexon, or DCUSA, rather than individually by each DNO.</li> </ul>
09/03/2026	SP ENW	We agree with the proposal in this CRN.
06/03/2026	UKPN	<p>Amendment 2 – Publication of a GSP Lookup Table</p> <p>We do not support the proposal for DNOs to publish and maintain a GSP lookup table, as this:</p> <ul style="list-style-type: none"> <li>• Would require DNOs to implement and maintain mappings to third party datasets (e.g., Elexon)</li> <li>• Introduce additional and unregulated responsibilities outside the remit of DNOs, and</li> <li>• Would likely be more appropriately managed centrally by bodies such as ENA, Elexon, or DCUSA, rather than individually by each DNO</li> </ul>
05/03/2026	NPg	<p>Further to your email below, from a Northern Powergrid perspective our stance on this is as follows:</p> <ul style="list-style-type: none"> <li>• The ID field for lines in the ECR we support and we have already implemented this in the opendata portal ECR dataset.</li> <li>• In terms of the GSP lookup table, we have no objections to this. I understand from internal colleagues that in previous meetings, it was discussed that we were happy to create this GSP lookup to make it easier for stakeholders to link to other datasets they may be using. We would be happy to reopen this discussion if required.</li> </ul>

### NESO ECR Change Request Notice – DCUSA Party Comments

24/02/2026	Centrica	<p>We had a representative at the meeting where this was discussed and understand that the proposal was amended to reflect the views of the group.</p> <p>We are supportive of the change as proposed.</p>
