

# DDDG Meeting 13

28 April 2026 at 10:00 - Web-Conference

Attendee	Company
<b>Attendees</b>	
Ian Burman [IB]	Green GEN Cymru
Rob Taylor [RT]	Smartest Energy
Peter Waymont [PW]	UKPN
<b>Code Administrator</b>	
Furqan Aziz [FA]	Chair
Hannah Proffitt [HP]	Secretariat

## 1. Administration

### Recording

- 1.1 The Chair reminded members that this meeting will be recorded. The purpose of this recording is purely to aid the Technical Secretariat in producing an accurate report of the meeting.

### Minutes of the Previous Meeting

- 1.2 No feedback was provided.
- 1.3 Slides presented during the meeting are included as **Attachment 1**.

## 2. Actions

- 2.1 Updates on the actions can be found in the Appendix.

## 3. DDDG Items

### AI Exploration

- 3.1 The Chair outlined that the DCUSA Board approved a budget for AI exploration in 2026/2027, with the current focus on identifying specific use cases where AI could benefit DCUSA users. The Chair noted that they have begun discussions with vendors to establish use cases.

- 3.2 RT highlighted the potential for AI to streamline distribution tariff processing and validation. RT raised the topic of the centralised tariff dashboard, and the Chair clarified that a dedicated session for this subject is scheduled later in the day.
- 3.3 RT noted that AI models such as Claude can be used for quantitative validation and data transformation.
- 3.4 IB suggested AI could be used to automate meeting notes, summarise technical documents, and identify areas for administrative efficiency. IB also suggested that AI could be used to review the entire DCUSA document to pick up any housekeeping changes and outdated references.
- 3.5 Participants discussed the limitations of general AI models for specialised areas like DCUSA, emphasising the need for domain-specific models and human oversight to prevent errors.
- 3.6 The Chair invited participants to the upcoming engagement day in June to further discuss AI use cases and share experiences with different models.

## 4. Review of User Feedback and Requests

---

### All feedback received via the website

- 4.1 The Chair advised they had received the following three items of feedback via the website.

On the change register, the release timeline page currently displays a fixed 12 months forward view. This means CPs with implementation dates beyond this period are not visible. Why can't we display all known future implementation dates without a date restriction?

- 4.2 The group agree to progress this improvement.

Action 13/01 - Chair to seek approval from the DCUSA Board to update the Change Register timeline to display all future implementation dates, not limited to dates 12 months in the future.

There is no option to filter by implementation date on the change register. sometimes we want to see which changes are expected to go live within a specific timeframe.

- 4.3 The group agree to progress this improvement.

Action 13/02 - Chair to seek approval from the DCUSA Board to add a filter to the Change Register for Implementation Date.

On individual change proposal pages, the quick links section does not include a link to the consultation. a dedicated button should be added. there should also be a status indicator subheading, such as "ongoing" or "closed".

- 4.4 The group agree to progress this improvement

Action 13/03 - Chair to seek approval from the DCUSA Board to add a Consultation 'Quick Link' to the Change Proposal page, that also highlights if the consultation is open or closed.

#### **Feedback or improvements from attendees**

4.5 The Chair asked for any further feedback from attendees, to which nothing was raised.

#### **5. Any Other Business**

---

5.1 The Chair asked attendees whether they had any other business to discuss. Nothing was raised.

#### **Attachments**

---

- Attachment 1 - DDDG Meeting 13 Slides

## New and Open Actions

Action Ref.	Action	Owner	Update
