

**DCP 473 Legal Text**  
**Solution A, Charge DUoS after meter is De-energised**

**Text Amend Schedule 16 paragraph 139 as follows:**

There will be no charges applied to MPANs which have yet to be Traded in MPAS Registration Systems or to non-consuming Whole Current metered sites and Unmetered Supplies. ~~correctly de-energised HH MPANs/sites as determined by the de-energisation status in MPAS~~ For the avoidance of doubt, HH CT metered sites that are De-energised will be charged.
