

DCMDG DNO Annual Obligation

1. Synopsis

- 1.1 DNOs are obligated to perform an annual review of the charging methodologies as part of their distribution licence conditions.
- 1.2 This document sets out how this obligation is met by DNOs via their activities as part of the DCMDG.

2. DCMDG Activities

- 2.1 The DCMDG has two standing agenda items that relate to the annual obligation:
 - 2.1.1 each March, inviting DNOs to consider any issues that need to be discussed at the April DCMDG meeting in respect of the annual review of the charging methodologies; and
 - 2.1.2 each April, completing the DNO annual review obligation.
- 2.2 DNO members can raise issues relating to the charging methodologies at any time throughout the year, using the issues form provided on the DCUSA website, [here](#).
- 2.3 Issues raised via the form are discussed within the DCMDG meetings and the outcomes of those discussions are recorded in the minutes of each meeting. The minutes can be found on the DCUSA website, [here](#).
